Information Technology: Six Goals

- Enable Student Success
- Build Faculty a 21st-Century Research Computing Ecosystem
- Enable __ Billion Fundraising Campaign
- Improve Customer/Constituent Experience
- Build an Analytics Platform
- Manage Risk

Information Technology: Principles and Values

- Student first, mobile first, cloud first
- Diversity, equity, and inclusion

Feedback

Goals

- What are your (individual) primary goals for the next five years?
- What are your department or program's primary goals for the next five years?
- What trends are influencing your department or program and its direction?

Challenges

- What challenges do you face in achieving your goals?
- What challenges does your program or department face in achieving its goals?

Alignment

- Do our proposed goals align?
- Have we identified any gaps?
- Do our principles and values resonate with you and your work?
