

Whereas Non-United States Citizens contribute to the diversity and academic excellence at the University of Florida

Whereas President Fuchs stated in his November 15, 2018 Senate report that welcoming people from around the world is critical to our nation's prosperity and to the education of all of our students

Whereas Faculty Senates at our peer institutions have passed resolutions formally recognizing the importance of supporting international faculty, students, staff, and scholars

Whereas the University of Florida is dedicated to fostering a caring community that provides leadership in a diverse, multicultural world

Therefore, be it resolved that the University of Florida Faculty Senate affirms the University of Florida's commitment to a diverse and inclusive community which supports our international faculty, scholars, students, and staff
