Rationale This course was created prior to the implementation of the updated BME curriculum. This course is now a requirement in the curriculum; previously, it was an optional elective for majors.

Students entering UF in 2018 and beyond will take BME4409 in a later term (as a senior) so we are asking to remove that corequisite for BME3012 due to the course sequencing. We are requesting to add the other courses due to course sequencing and knowledge required for BME3012. This course now serves as our required junior-level design class.
