Change Rotating Topic Designation? No

Change Repeatable Credit? No

Change Course Description? No

Change Prerequisites? Yes
Current Prerequisites EAS4101

Proposed Prerequisites EAS4132
Change Co-requisites? No

Rationale The proposed prereq, EAS4132 Compressible Flow, provides coverage of shock waves, expansion fans, and isentropic flow with area change in addition to basic aerodynamics. This extended coverage of compressible flow is desired to facilitate instruction on inlets and nozzles common to aerospace propulsion systems.
