Rationale We would like to remove "Instructor permission" because this is WAY too difficult to manage and unnecessary. Instead, we would like to add PUR3000 with a c or better as a prereq. This way, students have a foundation from the principles class that they can then build on with this class that is described as "Variable content provides opportunity for advanced study in the principles, processes and effects of public relations." As we have been managing the instructor permission through course requests (an excessive amount of course requests) we have been admitting students who have completed PUR3000 with a c or better.
