Answers to Questions from HHP-CCC

1. **Regarding the name of the course:** We can rename the course *Professionalism and Communication in Sports Healthcare*. External consults from PHHP have been obtained – no objections.

2. **Regarding the ATR prefix:** Because many of the DAT students will be looking to become faculty in AT programs at universities, having experience teaching or assistant teaching an ATR course would help them be competitive for those positions. Additionally, there was a lot of discussion regarding the prefixes that are tied more to course content than curricular programs. Examples include HSC (which is used for health science courses here in HEB as well as down in PHHP) and BSC (which is shared between APK and BIO). The general sentiment is that this course should be submitted with an ATR prefix.

3. **Regarding the size of the course:** We will cap it at 50 students for now.

4. **Regarding the target audience:** We aim to target students pursuing clinical internships, which will largely be APK students, but may include HEB students in the college. Because HEB students have their own pre-internship course, we will limit this to APK majors.

5. **Changes were made to the approvals site submission form and syllabus:**
   a. On submission form:
      i. Shortened course title was modified to reflect new name
      ii. Change prereq to 3HH standing
      iii. Change rationale to reflect where the course will fit in the curriculum, not the reason for offering the course: “Approved elective only”
      iv. Grading scheme – under 6a, delete “see class policy above”. Also delete “***detailed grading rubrics available in the attached syllabus***.”
   b. In syllabus:
      i. Under course policies > Professionalism – deleted “honor code violations” as this may prove overly limiting based on the severity of the honor code violation.
      ii. In the first rubric for online posts assignments, second row – the description for points for 10 and 8 were distinguished (corrected).
      iii. SLO 4 was modified to “Explore how cultural differences may influence client interactions and communication.”
      iv. The weekly course schedule was expanded to reflect one topic per week.

Hi Joslyn,
Thank you so much for getting in touch with us to ask about the course. I had a look at the syllabus and I don’t see any overlap with your proposed course and anything in our undergraduate public health program. I’m copying Mike Moorhouse, Director of the Bachelor of Health Science program, to make sure there’s no overlap with any courses in that program.
Best,
Cindy

Hi Joslyn,
I just spoke with Mike and he said there’s no conflict with any of the coursework in the BHS program. Please let me know if you need any documentation of this other than this email chain.
Best,
Cindy
