Proposed Curriculum Changes The change is to switch the sequence of two courses: OTH 6722 Professional Development in Occupational Therapy and OTH 6209 Applied Lifespan Human Development. OTH 6722 will be moved from spring of the senior year (semester eight) to fall of the junior year (semester five). OTH 6209 will be moved from fall of junior year (semester five) to spring of the senior year (semester eight).

UF Online curriculum change No

Pedagogical Rationale/Justification By moving the OTH 6722 to the fall, we can engage our students in learning activities and site observations in the first semester of the program, which will be integrated with learning in OTH 6002 Foundations of Occupational Therapy, also taken in the fall. By moving OTH 6209 to the spring of the final semester, we can begin applied content after they have completed the Foundations course and prior to their first fieldwork experience in the following summer when they are in the OTD program.

Impact on Enrollment, Retention, Graduation Students will take less credit hours during their first semester, which may help to ease the transition into the Occupational Therapy Accelerated program.

Assessment Data Review Students will integrate rigorous critical thinking for sound clinical reasoning that leads to implementation of best practices for optimal client outcomes (Theme: Critical Thinking for Practice and Scholarship).

Academic Learning Compact and Academic Assessment Plan No modifications needed.

Model Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold. These courses must be completed by the terms as listed above in the Critical Tracking criteria.

This semester plan represents an example progression through the major. Actual courses and course order may be different depending on the student's academic record and scheduling availability of courses. Prerequisites still apply.
