| Description of request | APK is proposing to eliminate the two tracks currently offered in the major (Exercise Physiology and Fitness Wellness) in order to offer a single curriculum (without tracks). In an effort to retain students, we have proposed a curriculum that looks very similar to our Exercise Physiology 8-semester plan, but with modifications that would not hinder Fitness Wellness-oriented students. Some of these curricular modifications will require changes to the common course prerequisites for our CIP (26.0908) in order to be in compliance with the articulation agreement. Since we are modeling our new curriculum from our Exercise Physiology track (which is labeled track 1/2 in the Common Course Prerequisite Manual), the attached request is for modifications to that track. Also attached is the current common course prerequisites (PDF doc) with comments showing requested edits. It is our intention to terminate both tracks if our proposed curriculum is approved. |

- Does this modification of currently approved common prerequisites involve adding another track to the currently approved prerequisites within the *Common Prerequisite Manual*?  
 No  Yes   
 Maybe - depends upon Discipline Committee Recommendation

If yes or maybe above, please provide justification regarding the significant differences in your curriculum that would necessitate a new track with different common prerequisites:

Explanation: UF's BS degree in APK offers two tracks/specializations: Exercise Physiology (CIP 26.0908, Track 1/2) and Fitness Wellness (CIP 26.0908, Track 2/2). We are proposing to eliminate all tracks and offer a single curriculum that would absorb students in both tracks. We are using our Exercise Physiology track as the model for our new curriculum. In order to ensure that we are in compliance with the articulation agreement, we'd like to request some changes to the Common Course Prerequisites for the Exercise Physiology track (see table below).

- If adding a common prerequisite course or course substitute, please provide the following information. You can find details about individual courses at the hyperlink to the Statewide Course Numbering System ([SCNS](#)). Type in the prefix and four digit number of the proposed course. The hyperlink leads to a page with two worksheets: statewide course detail and institutions. Clicking on the institutions page will identify the institutions offering the course. Be aware that there may be institutions besides Florida College System (FCS) and State University System (SUS) institutions listed.

 (2) UF requires MACX311.

FOR ALL MAJORS: Students are strongly encouraged to select required lower division electives that will enhance their general education coursework and that will support their intended baccalaureate degree program. Students should consult with an academic advisor in their major degree area.
