Response:

We have simultaneously requested a curriculum change for the Education Sciences major to make this course, EDF3423, a required (core) course for all majors. Due to the pending curriculum change, this course will need to be first in the program sequence, which means changing the current prerequisite. Simultaneously, we are requesting prerequisite changes for two other courses that are affected by the curriculum change, making this course the prerequisite for those later in the sequence. This course, EDF3423, covers foundational knowledge in research design that must precede other undergraduate research courses.
