## Responses

### Major Name

*Enter the name of the major. Example: "Mathematical Modeling"*

Response:  
Health Studies

### Major Code

*Enter the two-letter or three-letter major code.*

Response:  
HS

### Degree Program Name

*Enter the name of the degree program in which the major is offered.*

Response:  
Health Education and Behavior

### Undergraduate Innovation Academy Program

*Is this an undergraduate program in the Innovation Academy?*

Response:  
No

### Effective Term

*Enter the term (semester and year) that the curriculum change would be effective.*

Response:  
Fall

### Effective Year

Response:

2021

### **Current Curriculum for Major**

Response:

Currently Planning and Evaluating Health Education Programs (HSC 4713) is sequenced prior to Methods and Materials in Health Education (HSC 4302) - semester 6 and 7, respectively. HSC 4713 is listed in semester 6 and HSC 4302 is listed in semester 7.

### **Proposed Curriculum Changes**

*Describe the proposed changes to the curriculum. If the change is to offer the program through UF Online, please explain and attach a letter of support from the Director of UF Online.*

Response:

Requesting to change the sequence to the following: HSC 4302 - Methods and Materials in Health Education prior to HSC 4713 - Planning and Evaluating Health Education Programs. Move HSC 4302 to semester 6 and HSC to semester 7

### **UF Online Curriculum Change**

*Will this curriculum change be applied to a UF online program as well?*

Response:

Yes

### **Pedagogical Rationale/Justification**

*Describe the rationale for the proposed changes to the curriculum.*

Response:

Currently Planning and Evaluating Health Education Programs (HSC 4713) is sequenced prior to Methods and Materials in Health Education (HSC 4302) - semester 6 and 7, respectively. Review of data from previous semesters (exit survey data, SACS data, discussion information) helped determine students would be better served/better equipped if we switch the sequence – HSC 4302 in semester 6 and HSC 4713 in semester 7.

As stated in the Methods and Materials in Health Education (HSC 4302) course catalog description, Methods teaches fundamental strategies – strategies that form an essential foundation. Planning and Evaluating Health Education Programs (HSC 4713) course material builds on the information taught and adds to the foundation established in Methods and Materials in Health Education (HSC 4302).

As it is sequenced now, the Planning and Evaluating Health Education Programs (HSC 4713) instructors must use class time to teach information from Methods and Materials in Health Education (HSC 4302) to ensure students have the foundation to understand planning and evaluation material. It is essential for students to have the foundational information presented in Methods and Materials in Health Education (HSC4302) prior to taking Planning and Evaluation in Health Education (HSC 4713). A change in sequence will better prepare students and enhance student success in the Planning and Evaluating Health Education Programs (HSC 4713) core course.

### **Impact on Enrollment, Retention, Graduation**

*Describe any potential impact of the curriculum changes on students who are currently in the major.*

Response:

No negative impact anticipated.  
Positive impact on student success and understanding in HSC 4713.

**Assessment Data Review**

*Describe the Student Learning Outcome and/or program goal data that was reviewed to support the proposed changes.*

Response:  
HSC 4302 - Methods and Materials in Health Education is used to assess SLOs 1-5 and 7-8  
HSC 4713 - Planning and Evaluating Health Education Programs is used to assess SLOs 1,2,6,7

SLO data from previous years were reviewed as a part of the proposal process.

**Academic Learning Compact and Academic Assessment Plan**

*Describe the modifications to the Academic Learning Compact (for undergraduate programs) and Academic Assessment Plan that result from the proposed change.*

Response:  
No change

**Catalog Copy**

*Submitter agrees to prepare and upload document showing the catalog copy with the current and proposed curricula edited using the "track changes" feature in Word.*

Response:  
Yes
