Rationale
Please explain the rationale for the requested change.

Response:
We are dropping MAC 2233 Survey of Calculus because it is not consistent with rest of our sequence which all require MAC 2311 or MAC 3472. In fact, to take the co-req of COP 3503, one must have MAC 2311. As for adding COP 3502, the registration system does not check assumed prerequisites of prerequisites (co-requisite in this case) and our department wants to ensure that all assumed prerequisites are in place. COP 3502 is the prereq for the co-req COP 3503.
