Effective Term

Select the requested term that the course change(s) will first be implemented. Selecting "Earliest" will allow the change to be effective in the earliest term after SCNS approval. If a specific term and year are selected, this should reflect the department's expectations. Courses cannot be changed retroactively, and therefore the actual

effective term cannot be prior to SCNS approval, which must be obtained prior to the first day of classes for the effective term. SCNS approval typically requires at least 6 weeks after approval of the course change at UF.

Response:
Earliest Available

Effective Year

Select the requested year that the course change will first be implemented. See preceding item for further information.

Response:

Response:

I just took this course over and redesigned it. I think the current course contents are appropriate for sophomore as well. This is the first class for urban geography offered in the Department of Geography. It is an introductory course that covers fundamental concepts, theories, and models of a variety of topics such as origin and evolution of US urban systems, globalization, urban land

use, urban transportation, urban economic development, urban housing, race and ethnicity. After the completion of this course, students should be familiar with these topics and feel comfortable to take other higher-level courses of a particular topic such as transportation planning or transportation engineering from across campus.
