Effective Term

Select the requested term that the course change(s) will first be implemented. Selecting "Earliest" will allow the change to be effective in the earliest term after SCNS approval. If a specific term and year are selected, this should reflect the department's expectations. Courses cannot be changed retroactively, and therefore the actual effective term cannot be prior to SCNS approval, which must be obtained prior to the first day of classes for the effective term. SCNS approval typically requires at least 6 weeks after approval of the course change at UF.

Rationale

Please explain the rationale for the requested change.

Response:

Current prerequisites of STA 4321 or MAS 3114 or MAS 4105 (from the list above) do not contain ANY applied inferential topics or methodologies in statistics. STA 2023 does cover basic applied inferential topics in statistics but does not cover fundamental concepts to an extent that would warrant it as a stand alone prerequisite for the 4000 level applied course required for STA majors, minor and ACS minor.
