

PGs and SLOs Results and Use of Results
SAMPLE NEW FORMAT FOR AAC REVIEW

University of Florida College of Liberal Arts & Sciences

Geography (BS)

PG 1: Promote leadership and involvement in the department and profession

Equip students with integrative, holistic perspectives and accompanying analytical and technical skills so that they can find work in government agencies (e.g. planning, GIS and mapping, transportation, water management, health policy), the private sector and teaching

Evaluation Method

Maintain communication with recent graduates regarding employment through e-mail inquiries. Periodically survey recent graduates. The Undergraduate Coordinator compiled a list of recent graduates and their employment, and the Department Chair has reviewed it.

Use of Results for Program Improvement *NEW SECTION*

This would be a holistic statement of how the program faculty have used their results from the PGs and SLOs to modify and improve the program. This would eliminate the need for use of results to be reported for each SLO and PG
