Academic Assessment Committee	Comment	PV - Academic Assessment Committee	Brophy, Timothy S	This will be reviewed by the Academic Assessment Committee at its September 12, 2017 meeting. I recommend that you modify the goal statement to distinguish it from the evaluation method - you've stated both identically. One goal modification might be: "Reduce time to completion in masters degree programs to XXXX." (or "by XXXX"). Then the evaluation method is to track this.	8/25/2017
