CALS Curriculum Committee

We propose the following changes to the Communication and Leadership Development specialization's Academic Learning Compact, due to the reasons specified on the ALC revision form.

CURRENTLY:

- Communication and leadership development specialization: Achieve a grade of C or higher in AEC 4930, Communication and Leadership Development Capstone Experience, as evaluated by a committee of faculty.
- Achieve a grade of C or higher in a department internship course (AEC 4942, 4943, 4944 or 4948) or a capstone experience course (AEC 4930).

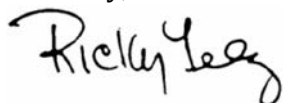

CHANGE TO:

- Communication and leadership development specialization: Achieve a grade of C or higher in AEC 4052, Communication Campaign Strategies in Agricultural and Life Sciences as evaluated by a committee of faculty.
- Achieve a grade of C or higher in a department internship course (AEC 4942, 4943, 4944 or 4948) or the Communication Campaign Strategies course (AEC 4052).

We also request that under the Student Learning Outcomes that AEC 4930 be deleted from the table list. We also request that SLO 2 and 3 be added to AEC 4052 for the reasons specified on the ALC revision form.

Please contact me if you have any questions regarding this revision.

Sincerely,

Ricky Telg
AEC Undergraduate Coordinator
