

Recommendations for the Academic Assessment Committee Approval Request Review Process

Discussion for 10-9-12 meeting

Method 1 – “Subcommittee review.” In this process, we would divide the reviews among the committee members 1 week prior to the meetings and expect a recommendation from the members at the meeting.

Method 2 – “Administrative review and recommendation.” In this process, I would review all of the incoming change requests, and submit my recommendations to the committee. All members would receive all submitted changes, with my recommendations provided at the meeting.
