

Senate IT Committee
Agenda 4-17-2013

- 1) Review of previous minutes and discussion as to the appropriate detail for our group.
- 2) Discussion of next topic
 - a. The balance between privacy, access and control over individual resources
 - b. Support; How does UF work towards a comprehensive IT support for faculty and staff.
 - c. Wireless access bandwidth, where on campus do we have problems with access
 - d. The design of future classrooms
 - e. Online Education programs: standards, faculty training, integration back to classrooms

- 3) Today's discussion, "The direction of UF student information system".

Cheri's letter

Dear College Faculty Chairs:

I am looking for a faculty member in your college interested in attending a focus team to gather information on the legacy student information system. If possible, I'd like one representative from each college. The focus team will be held for one and a half hours either on April 16, 17 or 18. They will set up the actual dates and times once they have a list of names. Please see the request I received below for faculty assistance.

In order to help serve campus and our students as effectively as possible, the Office of the Vice President for Enrollment Management and the Office of the CIO are engaging in a fact finding initiative designed to:

- Fully understand the University's needs and the current capabilities of our legacy student information systems
- Develop a vision for delivering student services in the future
- Develop a set of guiding principles that will define any future changes and improvements to these systems and services

This initiative requires broad participation from the campus community involved in delivering these vital student services, including admissions, financial aid, registrar, grade collection and posting, academic advising, graduate studies, bursar, orientation, and other-related student services.

If you have a faculty member willing to assist please send their name to Sue Alvers at salvers@ufl.edu by this **Friday, April 12**. I am sorry about the short turn around time. As always, thanks for your help.

Regards, Cheri

The current process is being directed through HR. Greg Dubios will present the process and the current direction of the project.
