Senate Faculty IT Subcommittee
Agenda – September 30, 2015
Tigert 202
1:00 p.m.

Agenda for Senate IT Committee

1. Review and Discuss possible agenda items for 2015-2016 suggested by CIO

Goal 1: Create a Technology Supported Ecosystem (content, delivery, analytics)

- Updates:
  - Content transition from Sakai
  - Training on embedded Canvas "analytics" tools
- Remaining issues:
  - Sakai data archiving and storage (Required and/or of value)
  - Roles and permissions policy and implementation
  - Prioritizing security/privacy/legal vetting of external plugins into Canvas

Goal 2: Transform Learning Spaces:

- Updates
  - Classroom technology upgrades
  - Collaborative spaces
- Remaining issues:
  - Assessment of collaborative space needs
  - Demand for virtualized labs (UFApps)

Goal 3: Mobilize teaching and Learning Services

- Updates
  - Virtual computer labs (UFApps)
  - Streaming infrastructure improvements
- Remaining Issues
  - Potential demand (prediction and resourcing)

Goal 4: Offer services for rich media production

- Updates
  - Production capacity increases
  - Staff development (Competencies on gaming, active learning, flipped classroom, ADA requirements, etc.)
- Remaining issues
  - Prioritizing and managing demand
  - Resourcing

Goal 5: Provide multiple technology training channels

- Updates
  - Awareness, training and education program
- Remaining issues
  - Prioritizing and resourcing

Goal 6: Engage leading institutions

- Updates
  - Participation in EDUCAUSE (Surveys, peer comparisons, strategy, collaboration)

Goal 7: Support and encourage innovation and continuous improvement

- Updates
    - o Metrics and learning analytics
- Remaining issues
    - o Identify important issues associated to metrics and learning analytics
    - o Transform culture from intuitive to data driven
