Visits

The recommendations for another coach visit were Mike Holloway, Tim Walton, Mary Wise. The committee thought Coach Holloway would be a great choice with the Track and Field teams' recent successes.

Tutor Survey Results

The change from online to face to face has improved response rates considerably, increasing from 30% to 85%. The results were presented to the IAC (attached) and the responses were generally consistent with appropriate compliance.

Sports Performance Major – Mike Sagas

This interesting possibility was discussed. More research and information needed for evaluation. This needs more research to find the intersection between Athletics and Academics. We will ask J. Lombardi to visit.

Website – renovation and update – TJ Summerford

The purpose of this site under development is to provide the academic community with a “window” to the academic athletic intersection. The intent is not only to inform but also to motivate interest and participation in the objective of excellence in both domains. The site is under construction with completion scheduled for Spring 2015.

Faculty Senate Chair – Pradeep Kumar

The Athletic Director was invited to speak to the Faculty Senate

FAR Report – Mike Sagas

Academic Major Data has been requested for the time period of Fall 11/12...need to set a meeting with SAC, Ombuds and Provost to work on compliance with the 12 day rule. The faculty are often not aware of the rule and/or find it difficult to comply.

Other Business; Future Meetings (early December)

Jeremy Foley – suggested the next meeting agenda include a discussion of Farrior Hall expansion and other construction projects underway or projected.

Lynda Tealer informed the group of the UAA Controls Audit

Keith Carodine – everyone is getting ready for Spring Advisement. Student athletics set up a recruiter round table. The Climb for Cancer sports camp was successful with 220 student athletes and 90-100 cancer patients.

David Kratzer talked about the recent assaults on campus. @80% students living are @ 1 mile radius of campus. A transportation consultant has assisted in improving the bus circulation system...added 2 more buses at night and is working on having 4 more run to decrease bus time to 8-10 minutes.
