Recommended Prefix DIG
Course Level 3
Number XXX
Category of Instruction Intermediate
Lab Code None
Course Title Blockchain Innovation in Digital Arts and Sciences
Transcript Title BLOCKCHAIN INNOVATION
Degree Type Baccalaureate

Delivery Method(s) On-Campus, Online
Co-Listing No
Co-Listing Explanation N/A (the course will not be co-listed)
Effective Term Earliest Available
Effective Year Earliest Available
Rotating Topic? No
Repeatable Credit? No

Amount of Credit 3

S/U Only? No
Contact Type Regularly Scheduled
Weekly Contact Hours 3
Course Description This course is a comprehensive survey of relevant topics in blockchain and its impact on digital arts and sciences. The course provides an overview of the technology behind blockchain and explores current and potential real-world applications in arts, digital entrepreneurship, and creativity.
Prerequisites MAJOR=DAR & CLASS=GE3
Co-requisites N/A

Rationale and Placement in Curriculum The BA in DAS program is focused on emerging technologies and their applications in the arts. This course will introduce students to the future of digital asset economy, copyright, and art creation on blockchain.

Course Objectives
- Master the theoretical foundations of blockchain technology
- Identify applications of blockchain technology in digital arts and sciences
- Understand the concept of decentralization, its impact, and its relationship with blockchain technology
- Grasp the inner workings of blockchain and the mechanisms behind bitcoin and alternative cryptocurrencies
- Understand the principles of smart contracts

Course Textbook(s) and/or Other Assigned Reading
Blockchain Technology Explained, Alan Norman (2017)

Weekly Schedule of Topics
Week 1: Blockchain and Cryptospace - Intro and history
Week 2: Bitcoin Protocol and Mechanics - A technical overview
Week 3: Blockchain: Real-world Applications
Week 4: a Technical primer on Bitcoin, cryptocurrencies, smart contracts, and blockchains
Week 5: Cryptoeconomics and proof-of-stake
Week 6: ICOs
Week 7: Removing Middleman and Reaching Trust - Reach consensus
Week 8: Tokenization of Assets
Week 9: Blockchain and Art Market
Week 10: Blockchain as an Art Medium
Week 11: Review of art projects on blockchain
Week 12: Micro-transactions and its uses in cyberspace
Week 13: Decentralized Governance /True Ownership of Data
Week 14: Blockchain: Real-world Applications in 2040
Week 15: Blockchain and the integration with other emerging technologies (VR, IOT, AI)
Week 16: Final project presentations

Links and Policies All links and policies recommended and required by the UF Policy on Course Syllabi are included.

Grading Scheme - There will be assigned readings each week, which should be completed before each class. Quizzes on weekly reading assignments (40%) - All students will be required to create an art project of their own choice that is blockchain related. Midterm project (20%) - Students will form project groups and complete a high-impact class project. The final deliverable will be a group presentation on a new application of blockchain in digital arts and sciences. Final Project (30%) - All students are expected to attend the class, and actively participate in class discussions. Attendance and Participation (10%)

Subject: Re: New blockchain course (Fw: UCC Approval Request Review Comments)

James, the CISE department co-manages the BS in Computer Engineering with the ECE Department. CISE doesn’t have any issues with this new course.

Thanks,

—

Hi Juan,

Digital Worlds (DW) has submitted a new course (Blockchain Innovation on Digital Arts & Sciences) that the UCC wants us to:
"consult with Computer Engineering".
Assuming they mean your Department :-)
we are asking if we might obtain a simple statement of approval for us to move forward with this course.

Details below and attached.

Thanks!

James

COURSE DESCRIPTION:
This course is a comprehensive survey of relevant topics in blockchain space, and its impact on digital arts and sciences. It will provide an overview of the technology behind blockchain and explore current and potential real-world applications in technology, entrepreneurship, and the arts.

PREREQUISITES: DAR major and junior standing

RECOMMENDED TEXTS:

PURPOSE OF COURSE: Digital Worlds Institute’s DAS major is focused on emerging technologies and their applications in the arts. This course will introduce students to the future of digital asset economy, copyright, and art creation on blockchain.

COURSE GOALS AND/OR OBJECTIVES: By the end of this course, students will be able to:
1. Master the theoretical foundations of blockchain technology
2. Identify applications of blockchain technology in digital arts and sciences
3. Understand the concept of decentralization, its impact, and its relationship with blockchain technology
4. Grasp the inner workings of blockchain and the mechanisms behind bitcoin and alternative cryptocurrencies
5. Understand the principles of smart contracts

More information on grades and grading policies is here: [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx)

**MATERIALS AND SUPPLIES FEES:**

Material and supply fees are assessed for certain courses to offset the cost of materials or supply items consumed in the course of instruction. A list of approved courses and fees is published in the Schedule of Courses each semester. (UF-3.0374 Regulations of the University of Florida)

Material and supply and equipment use fee information is available from the academic departments or from the schedule of courses (Florida Statutes 1009.24). The total M&S for this class is: $0.00

The total course fee for each course is listed on the UF Schedule of Courses. ([https://registrar.ufl.edu/soc/](https://registrar.ufl.edu/soc/)).

**COURSE POLICIES:**

**ATTENDANCE POLICY:**
Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx)

**COURSE TECHNOLOGY:** The students will be required to have access, and use a personal computer with the access to the Internet. Word editing software will be required for written assignments.

**COURSE COMMUNICATIONS:**
Students can communicate directly with the Instructor regarding the course material through the course management system (CANVAS).

**UF POLICIES:**

**UNIVERSITY HONESTY POLICY**
UF students are bound by The Honor Pledge that states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

CLASS DEEMER
Students are expected to arrive to class on time and behave in a manner that is respectful to the instructor and to fellow students. Please avoid the use of cell phones and restrict eating to outside of the classroom. Opinions held by other students should be respected in discussion, and conversations that do not contribute to the discussion should be held at minimum, if at all.

UNIVERSITY POLICY ON ACCOMMODATING STUDENTS WITH DISABILITIES:
Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

UNIVERSITY POLICY ON ACADEMIC MISCONDUCT: Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at http://www.dso.ufl.edu/students.php.

NETIQUETTE: COMMUNICATION COURTESY: All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats, more information can be found at: http://teach.ufl.edu/docs/NetiquetteGuideforOnlineCourses.pdf

ONLINE COURSE EVALUATIONS: Students are expected to provide feedback on the quality of instruction in this course based on ten criteria. These evaluations are conducted online at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at http://evaluaations.ufl.edu.
