Change Co-requisites? No

Rationale APK 2105C is being removed as a prerequisite for this course to match prerequisites for the BPH program. Historically this course was taken only by BHS students where the APK course was required. With the addition of the BPH to the college, as well as the recently approved modification to the Public Health minor whereby HSA 3111 can be taken to help fulfill the minor requirement, removing the APK prerequisite is necessary to ensure eligible students are able to register for the course.
