Responses

Current Prefix STA

Course Level 4

Number 321

Lab Code None

Course Title Introduction to Probability

Effective Term Earliest Available

Effective Year Earliest Available

Requested Action Other (selecting this option opens additional form fields below)

Change Course Prefix? No

Change Course Level? No

Change Course Number? No

Change Lab Code? No

Change Course Title? No

Change Transcript Title? No

Change Credit Hours? No

Change Variable Credit? No

Change S/U Only? No

Change Contact Type? No

Change Rotating Topic Designation? No

Change Repeatable Credit? No

Maximum Repeatable Credits 6

Change Course Description? No

Change Prerequisites? Yes

Current Prerequisites MAC 2313 and (STA 2023 or STA 3032) with minimum grades of C or instructor permission

Proposed Prerequisites MAC2313(C)

Change Co-requisites? No

Rationale The course builds on the mathematical foundation of Calculus 3 and does not require knowledge of basic statistical concepts. The theoretical statistical concepts are introduced and taught in the course through a purely mathematical perspective and prior knowledge is not expected nor required. With a passing grade of C in MAC2313, the STA2023 or STA3032 requirement was always waived/permission granted.

In addition this will reduce the prereq and course load on ISE students who are required to take STA4321 and STA 4322.
