TEACHING METHODS

Supervision of clinical practice, individual conferences and seminar

LEARNING ACTIVITIES

Supervised clinical practice, individual conferences and seminar participation

CLINICAL EVALUATION

Minimum Required Clinical Practice Hours: 96 hours

Clinical experience will be evaluated through faculty observation, verbal communication with the student, written work, and agency staff reports using a College of Nursing Clinical Evaluation Form. Faculty reserve the right to alter clinical experiences, including removal from client care areas, of any student to maintain patient safety and to provide instructional experiences to support student learning.

Evaluation will be based on achievement of course and program objectives using a College of Nursing Clinical Evaluation Form. All areas are to be rated. A rating of Satisfactory represents satisfactory performance and a rating of Unsatisfactory represents unsatisfactory performance. **The student must achieve a rating of Satisfactory in each area by completion of the semester in order to achieve a passing grade for the course.** A rating of less than

satisfactory in any of the areas at semester end will constitute an Unsatisfactory course grade.

The faculty member will hold evaluation conferences with the student and clinical preceptor at each site visit. The faculty member will document or summarize each conference on the Clinical Evaluation Form or Incidental Advisement Record. This summary will be signed by the faculty member and student. Mid-rotation evaluation conferences will be made available to each student. **Final evaluation conferences with the faculty member are mandatory** and will be held during the last week of each clinical rotation. A student may request additional conferences at any time by contacting the clinical faculty.

Students enrolled in advanced practice courses with a clinical component will use Clinical Experience Form F to document clinical experiences including hours, practice location and preceptor for their personal records. Students also assess their learning experience using Clinical Site Assessment Form G. Completed Form G is collected in class and submitted to the Coordinator of Clinical Resources at the College. At the end of the clinical experience the student completes a self-evaluation and the faculty member completes a student evaluation using the College of Nursing Clinical Evaluation Form.

MAKE UP POLICY

Missed seminars must be made up by attending another scheduled seminar with permission of the instructor. In case of an absence from clinical experiences, the student will need to schedule additional clinical hours that are acceptable to the preceptor and faculty member. The faculty member will determine if this plan is an acceptable alternative.

Students are expected to be present for all scheduled classes, other learning experiences, and examinations. Students who have extraordinary circumstances preventing attendance should explain these circumstances to the course instructor **prior** to the scheduled class or as soon as possible thereafter. Instructors will then make an effort to accommodate **reasonable** requests.

ACCOMMODATIONS DUE TO DISABILITY

Each semester, students are responsible for requesting a memorandum from the Disability Resource Center (<http://www.dso.ufl.edu/index.php/drc/>) to notify faculty of their requested individual accommodations. This should be done at the start of the semester.
