Certificate Name : Certificate in Music in Medicine

Transcript Title: Certificate in Music in Medicine

Credits: 12

Level: Baccalaureate

CIP Code : 001303

Degree Name: Music

Effective Term : Spring

Effective Year: 2016

Certificate Description : The certificate recognizes special competency and achievement in the use of music in healthcare and health-related community settings. This certificate, recognizing these special skills, can serve as a credential for developing post-baccalaureate educational pathways and career options.

Requirements for Admission : Students must demonstrate a minimum intermediate level proficiency on their primary instrument, as demonstrated by completion of or enrollement in a 2000 level studio course and an audition. To qualify for the certificate, students must be current UF students and attain a 3.5 grade point average in all courses included in the Certificate curriculum within 6 months of graduation.

Requirements for Completion : Successful completion of the following courses:

HUM2592: Introduction to Arts in Healthcare (3 credits)

IDH3931: Music and Health (3 credits)

MUN1000/3000: Music Ensemble (3 credits)

HUM3940L: Arts in Healthcare Practicum 1 (2 credits)

HUMXXXX: Music in Medicine Capstone (1 credit) - proposed

Rationale and Place in Curriculum : The undergraduate Certificate in Music in Medicine complements existing School of Music programming, particularly for those seeking Music in Combination with an Outside Field in Pre-Health Professions. The certificate curriculum will provide students with an understand of the intersections between music and health disciplines and professional opportunities for engaging both disciplines. The certificate will be administered by the Center for Arts in Medicine in collaboration with the School of Music.

Student Learning Outcomes : Students identify and explain historical and theoretical foundations and practices within the field of arts in medicine.

Students identify, analyze, and apply practical skills and professional competencies related to ensuring patient safety in the application of music in healthcare settings.

Students articulate and appraise the scope of music in medicine practice in the context of related disciplines, such as music therapy.

Students identify, analyze and apply research and best practice methods in the field.

To Whom It May Concern:

On behalf of the University of Florida School of Music, I am happy to write this letter in support of the proposed **Undergraduate Certificate in Music in Medicine**. Upon review by the School of Music Curriculum Committee, we find no potential conflict with our curriculum and, in fact, feel it represents a likely path of interest for many of our students.

Respectfully,

A handwritten signature in black ink, appearing to read "Kevin R. Orr", written in a cursive style.

Kevin Robert Orr
Professor and Interim Director
UF School of Music

To whom it may concern:

The Honors program is pleased that a course we pioneered is involved in a new certificate program. The course, "Music and Health", has been taught as an Honors course for several years by Dr. Miriam Zach and has received very positive reviews from students. The new certificate program, "Music and Medicine", will have this course as a required component of the certificate.

While it is still going to be an Honors course, we look forward to having non-Honors students enrolled in the course. As the certificate gets started, we don't mind opening the enrollment of the course to a larger audience.

One of the characteristics of a thriving Honors Program is that things we pioneer become mainstream. So we consider this a positive development, and hope more of our courses go mainstream.

Sincerely,

A handwritten signature in blue ink that reads "Mark E. Law". The signature is stylized with a large "M" and "L" and a cursive "E".

Mark E. Law
Professor and Director of UF Honors
