Critical Tracking Model Semester Plan

## Overview

Students in the major take advantage of nationally and internationally respected faculty, particularly in the final undergraduate independent project. Student work shows strength in ecologically based planning and design, urban issues and conservation; all of strategic concern in Florida and elsewhere.

Educational options include an eight-month internship, focused electives for individual specialization, competitions, and interdisciplinary certificates in historic preservation, sustainable design, geographical information systems (GIS) and wetlands. Studies abroad in landscape architecture include an international service learning exchange summer program in Southeast Asia.

Required field trips broaden and expand students' educational experiences. Students may also be required to attend state and national professional meetings.

## Critical Tracking

Critical Tracking records each student's progress in courses that are required for entry to each major. Please note the critical-tracking requirements below on a per-semester basis.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

All coursework must be completed successfully in no more than two attempts with minimum grades of C.
