Form version: 1

Responses

Current Certificate Name Fire and Emergency Services Certificate

Effective Term Fall

Effective Year 2017

Requested Action Terminate Certificate

Rationale for Proposed Change(s)The FES curriculum has been updated to include different tracks and therefore new certificates have been created to reflect those so this certificate is no longer valid/needed.

Assessment Data ReviewThe decision to change the curriculum was made by the faculty and also the advisory board to reflect what is happening in fire education and the career.

Academic Assessment Plan ChangesThe academic assessment plan is currently under review for the April 17th meeting.

To whom it may concern,

The certificate for the Fire and Emergency Services certificate was approved for deletion by the Rinker School of Construction Management faculty and undergraduate committee. It is proposed to be removed this fall. This certificate was replaced by the Senior Fire Officer certificate which was approved and implemented through UCC. As a result there will be no impact on students as any student whom had applied for the Fire and Emergency Services certificate has fulfilled the requirements for the certificate. There are no additional students in this certificate program.

Sincerely,

Robert J. Ries, Ph.D.

Director and Rinker Professor
