Added uccconsult BS anthro.pdf					1/7/2016
College	Recycled	CLAS - College of Liberal Arts and Sciences	Pharies, David A	<p>B.S. in Anthropology – conditionally approved.</p> <ul style="list-style-type: none"> Delete “real world” from rationale, as it implies that the B.A. does not address the real world. Overview states that a grade of C is required for all coursework for the major. Required “foundational” coursework states that a “minimum GPA of 2.5” is required. Is this contradictory? Also, note that 2.5 is halfway between C+ (2.33) and B- (2.67). Is the minimum grade of C (2.0) also required here, or is B- required? Under “required foundational coursework”, make editorial changes for the sake of clarity: “Three of the following four core science requirements”, “(in addition to STA 2023, which is required of all APY majors)”. 	2/10/2016

Percentage of Credits Available Off-Campus<25%

Rationale for the Proposed Major We currently offer a BA degree in anthropology. The discipline of anthropology ranges from humanistic approaches to scientific inquiry. Our program provides training in the four-fields of anthropology: cultural anthropology, archaeology, linguistics, and biological anthropology. Our current BA requires that students complete 4 required courses-one in each of the subfields- and 18 credits of anthropology. BA students focus their anthropology curriculum and non-anthropology electives in tandem with their topical and geographical interests within anthropology and in conjunction with their post-graduation goals. Some of our current students, who want to focus on scientific fields, are concurrently completing the BA degree in conjunction with the science core curriculum. The proposed BS degree would serve those students who want to concentrate in the anthropological sciences. The anthropology BS would require 4 core classes and then 18 anthropology electives from courses that are explicitly scientific in content. In addition, students would be required to complete the scientific core along with 6-8 credits in other biological or environmental sciences.

A BS in anthropology will provide an accessible, science-based curriculum for CLAS students interested in anthropological problems and solutions. While anthropology is nominally a 'social science,' many of its applications are based completely on scientific inquiry involving empirical data collection, analysis, and interpretation. Undergraduate coursework and training in biological and archaeological anthropology as well as ecological and biocultural approaches to the human condition are inherently scientifically grounded in their methodology. Course content focused on empiricism and hypothesis-testing, reinforced with lab and field-based training, develops critical thinking skills and scientific literacy for students who pursue science-based curricula and identified 'tracks' within the major.

The proposed BS in anthropology at UF will be the first such program in the Florida SUS. Current trends at top-tier AAU institutions include BS options either within 'anthropology' or with descriptive program titles, but with anthropological core curricula (e.g., 'Anthropological Sciences', 'Evolutionary Anthropology', 'Human Evolutionary Biology', 'Concentration in Human Biology'). Three of UF's AAU Peer Institutions have adopted a

BS Anthropology option (Penn State University, The Ohio State University, and University of Michigan). This trend underscores anthropology's broad, interdisciplinary nature, focused on biological systems, health-based initiatives, and novel approaches to scientific data and their interpretation. As a holistic field of study, anthropology has much to offer undergraduate students who wish to develop a strong foundation in the sciences. A BS degree in anthropology is consistent with key programmatic goals at UF and the SUS, in that it will foster interdisciplinary, STEM-based education with our most proactive students.

The proposed BS in anthropology will provide students with a degree option that rewards their work in basic science and complements their training in anthropology. The degree will be of interest to undergraduates who seek to develop an academic program plan commensurate with interests in anthropology and allied science, technology, engineering, and mathematics (STEM) fields.

All requisite resources are 'in place' at UF, and many anthropology majors already meet the BS requirements proposed for this new degree program. The BS degree will be an attractive option for a proportion of our students, and will attract additional students to this field of study, which will further facilitate scientific literacy and knowledge. The proposed BS does not overlap with any existing majors or other programs at UF.

Impacts on Other Programs Consultations with Biology, Geology, and Geography are supportive of the proposed BS degree.

We do not anticipate that either the elective or general education course work needed for the major will significantly impact existing programs.

Some students already completing a BS degree will add the anthropology BS as a dual or second major.

Critical Tracking for the BS

To graduate with this major, students must complete all university, college and major requirements. For degree requirements outside of the major, refer to CLAS Degree Requirements: [Structure of a CLAS Degree](#).

Equivalent critical-tracking courses as determined by the State of Florida [Common Course Prerequisites](#) may be used for transfer students.

Semester 1

- 2.5 UF GPA required

Semester 2

- Complete 1 anthropology course and one science foundation course
- 2.5 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023 and one additional science foundation course
- 2.5 UF GPA required

Semester 4

- Complete 1 additional anthropology course and one additional science foundation course
- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Semester 5

- 2.5 GPA required for all critical-tracking courses
- 2.5 UF GPA required

Recommended Semester Plan

- Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

Semester 1	Credits
ANT 2410 Cultural Anthropology (GE-S and D) or ANT 2140 Introduction to World Archaeology (3)	3
State Core Composition (GE-C, WR)	3
IUF 1000 What is the Good Life (GE-H)	3
Foreign language	3-5
Chemistry: CHM 2045/2045L (GE-P)	4
	Total 16-18

Semester 2	Credits
ANT 2140 Introduction to World Archaeology or ANT 3514C Introduction to Biological Anthropology (4) (GE-B)	3-4
CHM 2046/2046L (GE-P)	4
Foreign language	3-5
Mathematics (GE-M)	3
	Total 13-16

Semester 3	Credits
ANT 2140 Introduction to World Archaeology (3) or ANT 2410 Cultural Anthropology (3) (GE-S and D)	3
STA 2023 Introduction to Statistics 1 (GE-M)	3
Biology: BSC 2010/2010L Integrated Principles of Biology 1 (3) and Integrated Principles of Biology 1 Laboratory (1) (GE-B)	4
Elective (or foreign language if 4-3-3 option)	3
State Core Humanities (GE-H)	3
	Total 15-17

Semester 4	Credits
ANT 3514C Introduction to Biological Anthropology (4) (GE-B)	3-4
ANT 3620 Language and Culture (GE-S and N)	3
BSC 2011 and 2011L Integrated Principles of Biology 2 (3) and Integrated Principles of Biology 2 Laboratory (1) (GE-B)	4
Electives	3
	Total 13-14

Semester 5	Credits
Anthropology courses (two, at 3000 level or above)	6
Composition (ENC 3254 or ANT 3860 recommended; GE-C, WR)	3
PHY 2053/2053L or (GE-P)	
Mathematics: MAC 2311 or STA 3024 (GE-M)	3-5
Electives	3
	Total 15-16

Semester 6	Credits
Anthropology courses (one at 3000 level or above; one at 4000 level)	6
PHY 2054/2054L (GE-P)	5
Electives (3000 level or above, not in major)	6
Total	Total 17

Semester 7	Credits
Anthropology course (1000-4000 level; one 4000 level)	6
Electives	3
Electives (3000 level or above, not in major)	6
Total	Total 15

Semester 8	Credits
ANT4931 Anthropology Capstone	3
Electives	6
Electives (3000 level or above, not in major)	6-7
	Total 15-17

Anthropology BS degree details of proposed course offerings

We have 5 required classes, and will allow these anthro courses listed here (or approved ANT3930/4930 Special Topics in Anthropology coursework) in conjunction with core science requirements. In addition to students pursuing the BS to fulfill pre-health requirements, many of our students in anthropology may be pursuing the BS option focused on archaeological science or other facets relating to anthropological sciences more generally. BS majors must have a minimum 2.5 GPA in all anthropology courses.

Required courses:

- ANT2410 Introduction to Cultural Anthropology
- ANT2140 Introduction to World Archaeology
- ANT3620 Language and Culture
- ANT3415 Introduction to Biological Anthropology
- ANT4931 Anthropology Capstone

Of the remaining 18 credits of anthropology electives, 3 credits may be at any level (2000+) and 15 must be selected from the following course electives:

- ANT 3515 Human Evolutionary Anatomy
- ANT 3186 Introduction to Zooarchaeology
- ANT 4114 Principles of Archaeology
- ANT 4147C Environmental Archaeology
- ANT 4468 Health and Disease in Human Evolution
- ANT 4525 Human Osteology and Osteometry
- ANT 4530 Seminar in Molecular Anthropology
- ANT 4531 Molecular Genetics of Disease
- ANT 4551 Primate Cognition
- ANT 4552 Primate Behavior
- ANT 4554C Primate Evolution
- ANT 4586 Human Evolution
- ANT 4740 Introduction to Forensic Science
- ANT 4113 Experimental Archaeology
- ANT 4907 Research Projects in Anthropology

- ANT 4911 Undergraduate Research in Anthropology
- ANT 4914 Department Honors in Anthropology
- ANT 4930 Special Topics in Anthropology- Biological or Archaeological Sciences
- ANT4824 Archaeological Field School (max. 6 cr)

Required Foundation Coursework. In addition to STA 2023, Introduction to Statistics, which is required of all APY majors, three of the following four core science requirements sequences are required with a minimum GPA of 2.5.

- Biology: BSC 2010/2010L and BSC 2011/2011L
- Chemistry: CHM 2045/2045L and CHM 2046/2046L
- Physics:
PHY 2053/2053L and PHY 2054/2054L -or-
PHY 2048/2048L and PHY 2049/2049L
- Mathematics: MAC 2311 or STA 3024

Related Science Core Coursework (6-8 credits) with a minimum GPA of 2.5 include the following courses, or approved coursework not listed.

- Ecology: PCB 4043C
- Genetics: AGR 3303 or PCB 3063
- Evolution: PCB 4674
- BSC 4936 Critical Analysis of Biological Research
- GLY 2010C Physical Geology, 4 credits or
- GIS 3043 Foundations of Geographical Information Systems, 4 credits
- GLY 2100C Historical Geology or GLY 3105C Evolution of Earth and Life in America, 4 credits
- GEO 2200 and GEO 2200L Physical Geography and Physical Geography Laboratory, 4 credits
- SWS 3022 and 3022L Introduction to Soils in the Environment and laboratory, 4 credits

Anthropology

Anthropology is the study of people in their cultural context and the examination of all aspects of patterned social behavior. The discipline is worldwide in scope and encompasses all aspects of human biological and social life from earliest times to the present. It is a broad, holistic field that seeks to understand human adaptation to natural and social environments.

About This Major

- **College:** Liberal Arts and Sciences
- **Degree:** Bachelor of Arts
- **Credits for Degree:** 120
- **Minors:** Yes
- **Academic Learning Compact:** [Anthropology](#)
- **Website:** www.anthro.ufl.edu/undergrads.shtml

Overview

Anthropology includes four subfields: cultural anthropology, archaeology, biological anthropology and linguistics. Undergraduates may concentrate their studies in one of these four subfields or pursue a focus in an interdisciplinary track with another major or minor.

The anthropology major has two different programs: the Bachelor of Arts and the Bachelor of Science. Coursework for the major will depend upon the program, which are both flexible.

Students who are uncertain of a program should contact the Department of Anthropology's undergraduate coordinator for information and curriculum planning.

Either the BA or the BS. ~~A Bachelor of Arts is degrees~~ are earned in anthropology rather than in any one subfield.

Formatted: Strikethrough

A ~~BA~~ undergraduate major in anthropology provides students with a broad-based liberal arts education and prepares students to work in an increasingly complex world. Anthropology majors learn about different groups of people, their prehistory and their biological and cultural diversity through disciplines that combine social science, natural science and the humanities. Many undergraduate anthropology majors go on to graduate school in the social sciences, while others use anthropology to prepare themselves for professional careers in other disciplines. In a world of increasing globalization and need for effective international relations and understanding, anthropology is a highly relevant liberal arts and sciences major for students interested in pursuing careers in education, government, health, business and law.

Formatted: Space Before: Auto, After: Auto, Line spacing: single

The **BS major in anthropology** provide students with a degree option that rewards their work in basic science and complements their training in anthropology. The degree will be of interest to undergraduates who seek to develop an academic program plan commensurate with interests in scientific anthropology and allied science, technology, engineering, and mathematics (STEM) fields. BS majors engage in anthropology through coursework, lab and field-based research, and outreach. A grounding in scientific-based research, community initiatives and multicultural skillsets enable our students to address pressing needs in both local and global contexts. For example, students often engage in independent and collaborative initiatives on and off campus and receive pre-graduate training in life sciences, health-related disciplines, or archaeological science fields. A BS in Anthropology will encourage students to develop STEM-based skill sets and enhance scientific inquiry to address salient anthropological issues. This degree inevitably utilizes related fields including anatomy, biology, chemistry, ecology, engineering, genetics, geology, physics, mathematics, statistics, zoology and botany.

Coursework for the Major

The major **Both the BA and the BS** requires a minimum of 34 semester credits in anthropology. A minimum of 18 credits of anthropology coursework must be completed at UF. For the BA, all coursework must be completed with minimum grades of C. For the BS degree, all required anthropology, STA 2023, and science core courses must be completed with a minimum GPA of 2.5.

Required Coursework for the BA

- ANT 2410 Cultural Anthropology
- ANT 2140 Introduction to World Archaeology
- ANT 3514C Introduction to Biological Anthropology
- ANT 3620 Language and Culture
- ANT4931 Anthropology Capstone
- Of the remaining 18 credits, -9 must be 3000 level and above and 6 must be 4000 level. The remaining 3 credits can be at any level.
- In addition to the 34 credits of anthropology coursework, majors are also required to earn a minimum grade of C in STA 2023 Introduction to Statistics I.
- There are no prerequisites for 2000-level courses. Students in the honors program may take honors sections of any offered anthropology class. Any student at the sophomore level and above with the appropriate prerequisites or permission of the instructor may enroll in graduate-level courses.

Required Coursework for the BS

- ANT 2410 Cultural Anthropology

- [ANT 2140 Introduction to World Archaeology](#)
- [ANT 3514C Introduction to Biological Anthropology](#)
- [ANT 3620 Language and Culture](#)
- [ANT4931 Anthropology Capstone](#)

The remaining 18 credits must be of the following courses:

- [ANT 3515 Human Evolutionary Anatomy](#)
- [ANT 3186 Introduction to Zooarchaeology](#)
- [ANT 4114 Principles of Archaeology](#)
- [ANT 4147C Environmental Archaeology](#)
- [ANT 4468 Health and Disease in Human Evolution](#)
- [ANT 4525 Human Osteology and Osteometry](#)
- [ANT 4530 Seminar in Molecular Anthropology](#)
- [ANT 4531 Molecular Genetics of Disease](#)
- [ANT 4551 Primate Cognition](#)
- [ANT 4552 Primate Behavior](#)
- [ANT 4554C Primate Evolution](#)
- [ANT 4586 Human Evolution](#)
- [ANT 4740 Introduction to Forensic Science](#)
- [ANT 4113 Experimental Archaeology](#)
- [ANT 4907 Research Projects in Anthropology](#)
- [ANT 4911 Undergraduate Research in Anthropology](#)
- [ANT 4914 Department Honors in Anthropology](#)
- [ANT 4930 Special Topics in Anthropology- Biological or Archaeological Sciences](#)
- [ANT4824 Archaeological Field School \(max. 6 cr\)](#)

Required Foundation Coursework. In addition to STA 2023, Introduction to Statistics, which is required of all APY majors, three of the following four core science requirements sequences are required with a minimum GPA of 2.5.

- [Biology: BSC 2010/2010L and BSC 2011/2011L](#)
- [Chemistry: CHM 2045/2045L and CHM 2046/2046L](#)
- [Physics:](#)
[PHY 2053/2053L and PHY 2054/2054L -or-](#)
[PHY 2048/2048L and PHY 2049/2049L](#)
- [Mathematics: MAC 2311 or STA 3024 \(STA 2023 required of all APY majors\)](#)

Related Science Core Coursework (6-8 credits) with a minimum GPA of 2.5 include the following courses, or approved coursework not listed.

- [Ecology: PCB 4043C](#)
- [Genetics: AGR 3303 or PCB 3063](#)
- [Evolution: PCB 4674](#)
- [BSC 4936 Critical Analysis of Biological Research](#)
- [GLY 2010C Physical Geology, 4 credits or](#)
- [GIS 3043 Foundations of Geographical Information Systems, 4 credits](#)
- [GLY 2100C Historical Geology or GLY 3105C Evolution of Earth and Life in America, 4 credits](#)
- [GEO 2200 and GEO 2200L Physical Geography and Physical Geography Laboratory, 4 credits](#)
- [SWS 3022 and 3022L Introduction to Soils in the Environment and laboratory, 4 credits](#)

Overseas Studies

Students concentrating in any subfield, particularly cultural anthropology and/or archaeology, are also encouraged to complete either an ethnographic study abroad program or an archaeological field school before their senior year.

Relevant Minors and/or Certificates

The department encourages students [pursuing the BA](#) to choose a minor or an interdisciplinary certificate option in African studies, Asian studies, environmental studies, Jewish studies, Latin American studies, linguistics or women's studies. Relevant courses in anthropology may be used to fulfill some requirements.

Critical Tracking [for the BA](#)

To graduate with this major, students must complete all university, college and major requirements. For degree requirements outside of the major, refer to CLAS Degree Requirements: [Structure of a CLAS Degree](#).

Equivalent critical-tracking courses as determined by the State of Florida [Common Course Prerequisites](#) may be used for transfer students.

Semester 1

- 2.0 UF GPA required

Semester 2

- Complete 1 anthropology course

- 2.0 UF GPA required

Semester 3

- Complete 1 additional anthropology course or STA 2023
- 2.0 UF GPA required

Semester 4

- Complete 1 additional anthropology course
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Semester 5

- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA required

Recommended Semester Plan

Students are expected to complete the writing requirement while in the process of taking the courses below. Students are also expected to complete the general education international (GE-N) and diversity (GE-D) requirements concurrently with another general education requirement (typically, GE-C, H or S).

Semester 1	Credits
