College	Recycled	PHHP - College of Public Health and Health Professions	Candice Vogtle	These prerequisites require further revision based on the rationale provided; those proposed will not define the eligible student group well enough to distinguish students tracking from those in limited access . I will contact the program director.	8/31/2017

RationaleThe courses that are being added as are in place to set controls for the course since they are taken within a BPH student's junior year. As the capstone of the program, it would only be appropriate for a student to take this course as a senior. The co-requisite, PHC 3661, is being removed in order to allow flexibility with BPH students, but is still a required, core course. The title is being updated to have the "1" removed as there is not a Service Learning Practicum 2 course, nor are plans to create one.
