Info
Request: HOS 3XXX The Organic Debate: Organic Agriculture Development & Regulations
Description of request: We request to create a new course titled HOS 3XXX – The Organic Debate: Organic Agriculture Development & Regulations
Submitter: Gerardo Nunez Villegas g.nunez@ufl.edu
Created: 12/11/2018 2:54:51 PM
Form version: 4

Responses
Recommended Prefix HOS
Course Level 3
Number XXX
Category of Instruction Intermediate
Lab Code None
Course Title The Organic Debate: Organic Agriculture Development & Regulations
Transcript Title Organic Ag Debate
Degree Type Baccalaureate

Delivery Method(s) On-Campus
Co-Listing No
Co-Listing Explanation Not applicable
Effective Term Earliest Available
Effective Year Earliest Available
Rotating Topic? No
Repeatable Credit? No

Amount of Credit 1

S/U Only? No
Contact Type Regularly Scheduled
Weekly Contact Hours 1

Course Description Organic farming is a rapidly developing production system. This introductory course provides a critical analysis of organic agriculture growth, consumer perceptions, and regulations at the national and international level. This course also focuses on organic agriculture transdisciplinary innovations and challenges in advancing environmental, economic, and social sustainability of food production.

Prerequisites BSC 2005 or equivalent
Co-requisites None

Rationale and Placement in Curriculum This course complements our existing courses in organic horticulture by focusing on current and emerging technologies and regulations that affect organic agriculture. This course will be required in our Organic Horticultural Systems specialization and elective for students in other specializations in the BS in Horticultural Sciences. It is also expected that this course will serve as an introduction to organic agriculture for students outside the major.

Course Objectives Upon successful completion of this course, students will be able to:
• Critically assess consumer perceptions of organic agriculture and organic agriculture research.
• Explain the systems approach used in organic production.
• Evaluate the dynamics of organic agriculture regulations at both national and international levels.
• Describe organic standards and certification process.
• Discuss major challenges and critical areas for future development in organic farming to improve food security and long-term sustainability.

Course Textbook(s) and/or Other Assigned Reading There are no required textbooks for this course. Journal articles, websites, videos, and other materials will be collectively used.

Weekly Schedule of Topics Week 1. Introduction and course requirements; Effective use of library resources
Week 2. History of organic agriculture movement; Growth of organic markets and consumer demand; What does “Organic” mean?
Week 3. Why regulate organic agriculture?; Basic elements of organic standards
Week 4. The National Organic Program and organic certification process
Week 5. Organic crop production system overview
Week 6. Organic animal production system overview (case study report #1 due)
Week 7. Invited discussions with certifying agents
Week 8. The organic vs. conventional debate; Assessing organic agriculture research
Week 9. Can organic agriculture feed the world? An in-depth look at science and technology integration and innovations in organic farming
Week 10. A virtual visit to certified organic farms
Week 11. Organic agriculture development around the world: Europe
Week 12. Organic agriculture development around the world: Asia (case study report #2 due)
Week 13. Organic agriculture development around the world: Other regions
Week 14. The organic struggle
Week 15. The future of organic agriculture towards long-term sustainability
Final exams week (Organic agriculture innovation video due)

Links and Policies
COURSE POLICIES
Additional information on current UF grading policies for assigning grade points can be found here:
• Grading policy, https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx
Attendance and Make-up Policy
Attendance in this class is mandatory. However, you are allowed one unexcused absence during the semester without any influence on your final grade. More than one unexcused absence will result in a deduction in your final course grade by a third of a letter for each absence after one (for example, a grade of B+ would decrease to a B, a grade of A would decrease to an A-, with 2 unexcused absences). All students are encouraged to actively participate in class discussions and other in-class activities. You are required to attend every lecture and complete quizzes and assignments by the posted deadlines. Absences will be excused and late assignments will be graded only for documented emergencies as per UF’s attendance policy.

Additional information on class attendance and make-up exams, assignments and other work can be found here:
• UF Attendance policy, https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx

Technical Difficulties
If you are experiencing technical difficulties with Canvas, you should immediately contact the UF Help Desk. This will generate a ticket number, which documents the date and time of your technical difficulty. Any requests to make-up late work due to technical difficulties must be accompanied by this ticket number.
• UF Help Desk, HUB 132, (352) - 392 - 4357, www.lss.at.ufl.edu/help.shtml

Academic Honesty
As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action.
• For more information regarding the Student Honor Code, please see: http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code
Software Use
All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken when appropriate.

Services for Students with Disabilities
The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation.
- Disability Resource Center, 0001 Reid Hall, (352) 392-8565, www.dso.ufl.edu/drc/

Campus Helping Resources
Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.
- Counseling and Wellness Center, 3190 Radio Road, 392-1575, www.counseling.ufl.edu
- Counseling Services
Groups and Workshops
- Outreach and Consultation
Self-Help Library
- Wellness Coaching
- U Matter We Care, www.umatter.ufl.edu

Additionally, if you would like orientation on choosing a major, finding an internship, or planning your career, I encourage you to use the university’s on-campus resources.
- Career Connections Center, CR-100 Reitz Union, 392-1601, https://career.ufl.edu/

Course Evaluation Process
Student assessment of instruction is an important part of the effort to improve teaching and learning. At the end of the semester, you are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. These evaluations are conducted online at:
- Course evaluations, www.evaluations.ufl.edu

Evaluations are typically open during the last two or three weeks of the semester. You will be notified of the specific times when evaluations for this course are open. Summary results of these assessments are available to students at:
- Evaluations summary, www.evaluations.ufl.edu/results

Student Complaints
You can file and resolve any complaints about your experience in this course in the following site:
- Student complaints in residential courses, https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/

Grading Scheme
1. **Quizzes (200 points)**
   There will be seven bi-weekly online open-book quizzes during the semester. Students will take each of the 20-point quizzes within 30 minutes on E-learning between Thursday and the following Tuesday after the quiz is posted in E-learning. Students must work individually.

2. **Case study report (300 points)**
   Each student will conduct two case studies and complete the analytical reports for each case study during the semester. Each case study report is worth 150 points. In each case study, students will choose a specific area to critically analyze the role of organic agriculture, including organic regulations, in developing sustainable food systems as well as potential challenges and issues based on a comprehensive review of scientific literature.
3. Organic agriculture innovation video (150 points)
This is a group project. Each group of 3 students will produce a 5-minute video to discuss major advancements and challenges in organic agriculture development and identify directions for future innovations to overcome those challenges.

All points earned in the course will be summed to calculate your final grade. Letter grades will be based on the performance of each student relative to the following standard percentages (%) out of a total of 650 points:

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Letter Grade</th>

COURSE DESCRIPTION
Organic farming is a rapidly developing production system. This introductory course provides a critical analysis of organic agriculture growth, consumer perceptions, and regulations at the national and international level. This course also focuses on organic agriculture transdisciplinary innovations and challenges in advancing environmental, economic, and social sustainability of food production.

LEARNING OBJECTIVES
Upon successful completion of this course, students will be able to:
• Critically assess consumer perceptions of organic agriculture and organic agriculture research.
• Explain the systems approach used in organic production.
• Evaluate the dynamics of organic agriculture regulations at both national and international levels.
• Describe organic standards and certification process.
• Discuss major challenges and critical areas for future development in organic farming to improve food security and long-term sustainability.

TEXTBOOK
There are no required textbooks for this course. Journal articles, websites, videos, and other materials will be collectively used. E-learning (http://elearning.ufl.edu/) is also used in this course to post lectures, assignments, reading materials, useful websites, video clips, study guides, and grades.
COURSE GRADE

1. Quizzes 140 points
There will be seven bi-weekly online open-book quizzes during the semester. Students will take each of the 20-point quizzes within 30 minutes on E-learning between Thursday and the following Tuesday after the quiz is posted in E-learning. Students must work individually.

2. Case study reports 300 points
Each student will conduct two case studies and complete the analytical reports for each case study during the semester. Each case study report is worth 150 points. In each case study, students will choose a specific area to critically analyze the role of organic agriculture, including organic regulations, in developing sustainable food systems as well as potential challenges and issues based on a comprehensive review of scientific literature.

3. Organic agriculture innovation video 150 points
This is a group project. Each group of 3 students will produce a 5-minute video to discuss major advancements and challenges in organic agriculture development and identify directions for future innovations to overcome those challenges.

All points earned in the course will be summed to calculate your final grade. Letter grades will be based on the performance of each student relative to the following standard percentages (%) out of a total of 590 points:

100 – 93   A  <77 – 73   C
<93 – 90   A-  <73 – 70   C-
<90 – 87   B+  <70 – 67   D+
<87 – 83   B   <67 – 63   D
<83 – 80   B-  <63 – 60   D-
<80 – 77   C+  <60 – 0   E

Please feel free to discuss your grades with the instructor at any time during the semester. Additional information on current UF grading policies for assigning grade points can be found here:

COURSE POLICIES

Attendance and Make-up Policy
Attendance in this class is mandatory. However, you are allowed one unexcused absence during the semester without any influence on your final grade. More than one unexcused absence will result in a deduction in your final course grade by a third of a letter for each absence after one (for example, a grade of B+ would decrease to a B, a grade of A would decrease to an A-, with 2 unexcused absences). All students are encouraged to actively participate in class discussions and other in-class activities. You are required to attend every lecture and complete quizzes and assignments by the posted deadlines.
Absences will be excused and late assignments will be graded only for documented emergencies as per UF’s attendance policy. Additional information on class attendance and make-up exams, assignments and other work can be found here:

Syllabus - 5
December 11, 2018

Re: HOS 3XXX – The Organic Debate: Organic Agriculture Development and Regulations

Comments: Course seems like it requires more effort than a 1 credit hour course. How much time is the student expected to devote to this course outside of classroom?

Dear Curriculum Committee:

Thank you very much for your feedback. For this 1-credit course, students are expected to spend 2 hours on average each week studying outside of class time. I have made the following revisions to the syllabus to address the committee’s concerns regarding the course workload.

1). There are now 7 biweekly online open-book quizzes instead of 10 quizzes originally proposed.
2). There are now 2 case study report assignments instead of 3 case study report assignments originally proposed.

In addition, I would like to point out that there is no term exam or final exam in this course. The organic agriculture innovation video due in the finals week is a group project, which will be carried out by groups of 3 students during the semester.

Thank you very much for your consideration! If you need any additional information, please feel free to contact me.

Sincerely,

Xin Zhao
