Pedagogical Rationale/Justification

The Florida Board of Governors Regulation 8.013 provides conditions under which a program may be approved as a limited access program. Generally, the program must meet at least one of the following:

<ol style="list-style-type:lower-alpha;">

- The number of students who have met all the requirements for admission to the university and to the program is in excess of available resources.*
- Applicants must demonstrate through an audition or submission of a portfolio that they already have the minimum skills necessary for them to benefit from the program.*
- The program is of such nature that in order to demonstrate potential for success in the program, applicants must attain a GPA and/or other standards above those required for admission to the university offering the program.*
- When an institution has exceeded its upper-level FTE enrollment limit as assigned by the Legislature by more than five percent.*

Response:
removal of limited access status because minimum GPA proficiency is no longer necessary
