### Cover Sheet: Request 12314

**EML4147C Thermo-Heat Transfer Design and Laboratory - name change and catalog description change**

**Info**
- **Process**: Course|Modify|Ugrad/Pro
- **Status**: Pending at PV - University Curriculum Committee (UCC)
- **Submitter**: Bruce Carroll bfc@ufl.edu
- **Created**: 2/19/2018 8:54:01 AM
- **Updated**: 9/6/2018 10:42:20 AM
- **Description of request**: Request change of catalog description, catalog name, and transcript name for the course EML4147C Thermo-Heat Transfer Design and Laboratory.

**Actions**

Course|Modify for request 12314

Info

Request: EML4147C Thermo-Heat Transfer Design and Laboratory - name change and catalog description change
Description of request: Request change of catalog description, catalog name, and transcript name for the course EML4147C Thermo-Heat Transfer Design and Laboratory.
Submitter: Bruce Carroll bfc@ufl.edu
Created: 2/19/2018 8:37:25 AM
Form version: 1

Responses

Current Prefix
Enter the current three letter code (e.g., POS, ATR, ENC).
Response: EML

Course Level
Select the current one digit code preceding the course number that indicates the course level at which the course is taught (e.g., 1=freshman, 2=sophomore, etc.).
Response: 4

Number
Enter the current three digit code indicating the specific content of the course based on the SCNS taxonomy and course equivalency profiles.
Response: 147

Lab Code
Enter the current lab code. This code indicates whether the course is lecture only (None), lab only (L), or a combined lecture and lab (C).
Response: C

Course Title
Enter the current title of the course as it appears in the Academic Catalog.
Response: Thermo-Heat Transfer Design and Laboratory

Effective Term
Select the requested term that the course change(s) will first be implemented. Selecting “Earliest” will allow the change to be effective in the earliest term after SCNS approval. If a specific term and year are selected, this should reflect the department’s expectations. Courses cannot be changed retroactively, and therefore the actual
effective term cannot be prior to SCNS approval, which must be obtained prior to the first day of classes for the effective term. SCNS approval typically requires at least 6 weeks after approval of the course change at UF.

Response:
Earliest Available

Effective Year
Select the requested year that the course change will first be implemented. See preceding item for further information.

Response:
Earliest Available

Requested Action
Indicate whether the change is for termination of the course or any other change. If the latter is selected, all of the following items must be completed for any requested change.

Response:
Other (selecting this option opens additional form fields below)

Change Course Prefix?

Response:
No

Change Course Level?
Note that a change in course level requires submission of a course syllabus.

Response:
No

Change Course Number?

Response:
No

Change Lab Code?
Note that a change in lab code requires submission of a course syllabus.

Response:
No
Change Course Title?

Response: Yes

Current Course Title

Response: Thermo-Heat Transfer Design and Laboratory

Proposed Course Title

Response: Thermal Sciences Design and Laboratory

Change Transcript Title?

Response: Yes

Current Transcript Title

Response: Thermo-Heat Des/Lab

Proposed Transcript Title (21 char. max)

Response: Thermal Sci Des/Lab

Change Credit Hours?

Note that a change in credit hours requires submission of a course syllabus.

Response: No

Change Variable Credit?

Note that a change in variable credit status requires submission of a course syllabus.

Response: No
Change S/U Only?
Response: No

Change Contact Type?
Response: No

Change Rotating Topic Designation?
Response: No

Change Repeatable Credit?
*Note that a change in repeatable credit status requires submission of a course syllabus.*
Response: No

Maximum Repeatable Credits
*Enter the maximum credits a student may accrue by repeating this course.*
Response: 0

Change Course Description?
*Note that a change in course description requires submission of a course syllabus.*
Response: Yes

Current Course Description
Response:
Thermodynamics and heat transfer integrated with design and laboratory, including heat exchange design, phase-change heat transfer, thermodynamics of mixtures, psychometry, mass transfer and sensible heat recovery.
Proposed Course Description (50 words max)

Response:
Thermodynamics, fluid mechanics, and heat transfer integrated with design and laboratory.

Change Prerequisites?

Response:
Yes

Current Prerequisites

Response:
EML3100, EML3301C and EML4140

Proposed Prerequisites

Response:
EML3100(C), EML3301C and EML4140

Change Co-requisites?

Response:
No

Rationale

Please explain the rationale for the requested change.

Response:
Topics from fluid mechanics are being added to the existing topics from thermodynamics and heat-transfer. This change gives the course broader coverage of topics in the thermal sciences. This is reflected in the name change and catalog description changes. The prerequisite change adds the requirement of a C or better in the course EML3100 to make this course consistent with the rest of the mechanical engineering curriculum. Note that the mechanical engineering curriculum already requires the C or better in EML3100.
Thermal Sciences Design and Laboratory
EML4147C

Class Periods: T R 3rd Period, Lab Period varies by section
Class Location: MAE-A 303
Academic Term: Spring 2018

Instructor:
John Abbitt
jda@ufl.edu
352-392-7557
Office Hours: MW 1 to 2:30 pm

Teaching Assistants:
TA to be determined

Course Description
Thermodynamics, fluid mechanics, and heat transfer integrated with design and laboratory. Credits: 3

Course Pre-Requisites / Co-Requisites
EML3100 with minimum grade of C, EML3301C, and EML4140

Course Objectives
The goal of this course is to provide an intermediate level coverage of thermodynamic, fluid mechanic, and heat transfer topics integrated with design and laboratory experiences. Specific objectives of the course are for students to:

• apply knowledge of mathematics, science, and engineering
• design and conduct experiments, as well as analyze and interpret data
• design a system, component, or process to meet desired needs
• function on multi-disciplinary teams
• identify, formulate, and solve engineering problems
• communicate effectively
• recognize the need for and engage in lifelong learning
• use the techniques, skills, and modern engineering tools necessary for engineering practice.

The objectives will be achieved through:

• In class lectures and examples
• Interactive classroom activities
• Student completion of homework
• Student completion of laboratory experiments
• Student completion of a major project
• Student completion of written reports
• Student participation in team activities.

Materials and Supply Fees: $238.50

Required Textbooks and Software
Materials developed by the instructor will be made available to students (no charge to student – pdf downloads from class web site)
**Course Schedule**

Week 1: Introduction to course
Week 2: Lab 1: Experimental determination of pipe friction factor
Week 3: Overview of instrumentation of fluid flow measurement
Week 4: **Lab Report 1 Due**, Calibration techniques
Week 5: Psychrometric charts, multi-phase thermodynamics theory
Week 6: Lab 2: Cooling tower experiments
Week 7: Instrumentation for heat transfer measurements
Week 8: **Exam 1, Lab Report 2 Due**, 
Week 9: Lab 3: Boiling heat transfer experiment, Computer based data acquisition and data analysis
Week 10: Turbomachinery design theory
Week 11: Continuation of turbomachinery theory, Computational tools for design
Week 12: **Lab Report 3 Due**, Preliminary Design Report Due
Week 13: Fabrication of design component
Week 14: **Exam 2**, Experimental verification of design
Week 15: **Final Design Report Due**, Oral Presentations
Week 16: No Class or Lab, No final exam

More information on UF grading policy may be found at: [https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx)
**Attendance Policy and Make-Up Policy**
Class attendance is expected. Unexcused absence of a lab period will result in a grade of zero for that experiment. Excused absences are consistent with university policies in the undergraduate catalog and require appropriate documentation (https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx).

Make-up work is allowed for excused absences. Students must contact the instructor to make arrangements for make-up work.

**Students Requiring Accommodations**
Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, https://www.dso.ufl.edu/drc) by providing appropriate documentation. Once registered, students will receive an accommodation letter to present to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

**Course Evaluation**
Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu/evals. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/.

**Class Demeanor**
Students are expected to arrive to class on time and behave in a manner that is respectful to the instructor and to fellow students.

**University Honesty Policy**
UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. A violation of the honor code will result in academic sanctions (typically a failing grade assigned for the course) and further disciplinary action. If you have any questions or concerns, please consult with the instructor or TAs in this class.

**Student Privacy**
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html

**Campus Resources:**

**Health and Wellness**

| U Matter, We Care: |
| Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for |
one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

**Counseling and Wellness Center:** [http://www.counseling.ufl.edu/cwc](http://www.counseling.ufl.edu/cwc), and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Assault Recovery Services (SARS)**
Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or [http://www.police.ufl.edu/](http://www.police.ufl.edu/).
