Rationale and Placement in Curriculum A current course (MMC 3702) covers Rock 'N' Roll and American Society up until 1970. This second course picks up after that.
Course Objectives Be able to broadly describe the evolution of rock music as it matured and produced new genres, its technological, regional, global and cultural influences, and apply this knowledge to articulate how all of that has influenced the cultural history of the United States. Students also will be able to identify by sound various genres of rock music and the general time period in which they emerged. Additional goals are to develop critical thinking skills, ability to distinguish important information and note-taking skills, all of which are useful in a broad range of disciplines.

(Complete before class 32)

Links and Policies
ATTENDANCE POLICY: Attendance is virtual, but you are expected to work along with the class in a timely fashion, viewing the assigned modules on time and completing the assigned readings. If you fall
behind, it will be very difficult to catch up.

EXAM POLICY: Exams will be offered online in a timed, proctored environment (ProctorU). You must complete the exam on the assigned date and within the allotted time. Exams are non-comprehensive. Each one covers the lectures and readings assigned since the previous exam. Therefore, there is no "final exam." All testing dates are clearly stated on Canvas. Failure to complete the test within the stated time-frame will result in a grade of zero. You will have to make appointments with ProctorU for your exams. These must be made at least three days in advance or you may be charged a fee. Plan to take the exams in a quiet place where you can concentrate. You can't do it in a car, moving or stationary, or on your smartphone. Please don't even try.

MAKE-UP POLICY: In general, there are no makeup exams. If you become aware of a serious problem or an extraordinary circumstance that will prevent you from taking an exam, you will need to provide documentation to prove your need for a makeup test. Otherwise, there will be no makeup exams except in cases of documented technical issues (see "Getting Help" below.)

ACADEMIC HONESTY: It is expected that you will exhibit ethical behavior in this class. Students are expected to do their own work, use their own words in papers, and to reference outside sources appropriately.

Students are further expected to observe intellectual property rights and to comply with copyright laws. The music included in the lectures for this class is the property of the respective copyright holders. It does not belong to you, and you are not free to copy it or distribute it to others. The same goes for the lectures themselves as well as images and videos included in the lectures and printed materials.

Academic honesty also means you will not plagiarize the words, designs, concepts or ideas of others. Plagiarism is defined as "...taking someone's words or ideas as if they were your own." Source: Dictionary.com.

Students who cheat will be prosecuted to the fullest extent of university rules. You will automatically receive a failing grade in this class if you engage in any form of academic dishonesty.

EXTRA CREDIT: There will not be any papers or projects offered for extra credit, but there will be extra credit questions on each exam worth an additional 10 to 12 points (which is what a paper or project would be worth anyway). No individual extra-credit opportunities will be offered; everyone in class is treated the same. Please remember that the grading scale (see below) is hard and fast. A point total of 799, for example, will not be rounded up to 800.

COURSE TECHNOLOGY: This is an online course being taught in Canvas. You will need a computer, Internet access of DSL speed or better and a GatorLink ID to gain access to the course and materials via the World Wide Web.

UNIVERSITY POLICY ON ACCOMMODATING STUDENTS WITH DISABILITIES: Students requesting accommodation for disabilities must first register with the Dean of Students Office (http://www.dso.ufl.edu/drc/). The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation. You
must submit this documentation prior to submitting assignments or taking any quizzes or exams. Accommodations are not retroactive, therefore, students should contact the office as soon as possible in the term for which they are seeking accommodations.

Instructor’s note: Students who are severely hearing impaired may have difficulty as we play and discuss a lot of music. Reading song lyrics is not always sufficient.

COURSE EVALUATIONS: Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/.

MATERIALS AND SUPPLIES FEES: There is a fee associated with this course which covers the cost of proctoring online exams. The current fee is listed in the Schedule of Courses.

UNIVERSITY POLICY ON ACADEMIC MISCONDUCT: Academic honesty and integrity are fundamental values of the University community. Students should be sure that they understand the UF Student Honor Code at http://www.dso.ufl.edu/students.php.

NETIQUETTE: COMMUNICATION COURTESY: All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. Students who “flame” others will be warned once and then locked out of the class’s online communications. http://teach.ufl.edu/docs/NetiquetteGuideforOnlineCourses.pdf.

COURSE COMMUNICATIONS: Messages will be sent to the class via Canvas Announcements. Individual students may be contacted via email. Students are encouraged to contact me via email to dcarlson@jou.ufl.edu. I will see your email faster than I will a Canvas message.

There also will be about 30 short articles that will be posted on Canvas.

PREREQUISITE KNOWLEDGE AND SKILLS: Prereq is sophomore standing, but students who are hearing impaired may have difficulty as we play and discuss a lot of music. No prior familiarity with music (rock or otherwise) is necessary or assumed. All I ask is that you have an open mind and be ready and able to suspend whatever pre-conceived notions you may have regarding “rock ‘n’ roll,” “rock music” or “popular music” in general.

PURPOSE OF COURSE: This communication course explores the history of rock (and pop) music—its significant performers, producers, recordings, performances, and cultural identity, with the focus on the decades of the 1970s, 1980s and 1990s.

It’s NOT a music course, per se, but we will be listening to a lot of music as we consider the effects of recorded sound on popular culture. Thus, this is a quintessential “communication and culture” course. We will study the origin and growth of the recording industry and music business, consider the impact new technology had (and continues to have) on the development of popular music and examine the mutual influences of rock ‘n’ roll music and other mass media (film, television, journalism, advertising, etc.).
We will attempt to integrate into this story the general social and intellectual history of the United States. Our emphasis is on rock 'n' roll and its impact from around 1970 to 1990.

Although MMC3702 is not a prerequisite for taking this class, we will pick up where that course leaves off: With the breakup of The Beatles in early 1970. Following a loose chronology, we will trace the evolution of specific musical styles and investigate issues related to culture, performance, technology, and reception. Reading assignments will introduce the distinct musical styles, performers, and works that comprise each genre and time period.

COURSE GOALS AND OBJECTIVES: By the end of this course, students will:

Be able to broadly describe the evolution of rock music as it matured and produced new genres, its technological, regional, global and cultural influences, and apply this knowledge to articulate how all of that has influenced the cultural history of the United States. Students also will be able to identify by sound various genres of rock music and the general time period in which they emerged.

Additional goals are to develop critical thinking skills, ability to distinguish important information and note-taking skills, all of which are useful in a broad range of disciplines.

INSTRUCTIONAL METHODS: This is a large lecture class conducted entirely online. Lectures include a great deal of multimedia, especially music and videos of musical performances. You will need a reasonably fast Internet connection as offered by Ethernet, DSL or cable modem.

Students are encouraged to discuss the material within the e-learning system, and the instructor will weigh in as appropriate. There also are some required discussions.

COURSE POLICIES:

HOW TO DO WELL: This class is a whole lot of fun. We listen to great music during every lecture. We watch videos and movie trailers. But “fun” does not mean “easy.” We cover a lot of material, about 30 years of music and social history, so it will be hard to catch up if you fall behind. To do well, the following will make a big difference:
1. **Watch every lecture** on time, and do not fall behind. Take good notes on the lectures and study them every day. You will not have time to go back through every lecture when exam time rolls around. Please note that there are some weeks when more than one module is assigned.

2. **Read the text** and all assigned materials *before* you watch the lectures. The book and other readings have been carefully chosen to maximize the experience and potential for intellectual growth. Keeping up with the readings will make a big difference in how much you enjoy the journey we will take in this course.

3. **Be open-minded** and fully engage yourself. Please leave your preconceptions about what music sucks and what doesn’t at the virtual classroom door. The development of rock has been mostly linear, and learning what came before will help you appreciate the music of today. My goal is to make you a better-educated listener, exposing you to many artists, genres and songs that may be new to you. It’s also to help you understand what a powerful force this music has been in American culture. Leave behind your subjective opinion of popular music. Be open-minded and don’t discriminate against music of any kind based on your previous experience.

4. **Complete four exams.** Tests will include a minimum of 50 questions and may be a combination of multiple-choice, true-false, audio and matching. Questions are taken from lectures and reading assignments. Many, if not most, exam questions will come from lectures so enjoy the music, do the “bar-stool boogie,” but stay alert.

5. **Participate in online discussions and chats.** The discussion prompts on Canvas will explain what is required for each of the eight discussions.

6. **Build an interactive timeline** that illustrates how music, technology and history correspond during the time period and demonstrates your understanding of that. Your timeline must include entries I will assign as well as entries you choose that help synthesize events. This will help you see and understand the overall picture.

7. **Participate in peer review** of your classmates’ timelines. The timelines will be graded primarily by the class. Each of you will be assigned four classmates’ timelines to evaluate. This lets you see how your fellow students did the same assignment. The instructors then will compile the scores and investigate any that seem "out of whack."

**ATTENDANCE POLICY:** Attendance is virtual, but you are expected to work along with the class in a timely fashion, viewing the assigned modules on time and completing the assigned readings. If you fall behind, it will be very difficult to catch up.
**EXAM POLICY:** Exams will be offered online in a timed, proctored environment (ProctorU). You must complete the exam on the assigned date and within the allotted time. Exams are non-comprehensive.
