RationaleThe UF School of Physician Assistant Studies, after a self-study analysis of the curriculum, is requesting conversion to a Pass/Fail (S/U) curriculum of the didactic year (first year). Currently UFSPAS uses a grading scale (A-E) to evaluate and monitor students' progress through both years of their education. The clinical year (second year) of training will continue using a grading scale for the core clinical rotations to allow students to achieve a ranking should they further their education.

The following reasons provide the rationale for moving towards a Pass/Fail (S/U) curriculum during the didactic year of education:

1. Allows students to become self-directed learners (intrinsic motivation)
2. Decreases/eliminates competition between students
3. Promotes more collaborative learning
4. Positively enhances students sense of well-being
5. Aligns us with the College of Medicine (COM) who has successfully adopted a Pass/Fail curriculum.
6. Fosters development of competency based evaluation
7. Decreases faculty/student tensions of assigning "fair" grades

Please look favorably on this request

PAS 5003C: Medical Communications [CA]

- <http://apps.aa.ufl.edu/Approval/Requests/Info/10582>
- **Change S/U Only:** Yes
- **S/U Only Status:** Change to S/U Only
- **Rationale:** The UF School of Physician Assistant Studies, after a self-study analysis of the curriculum, is requesting conversion to a Pass/Fail (S/U) curriculum of the didactic year (first year).
- Each course to be designated as a Pass/Fail (S/U) option will still maintain their current numerical grading rubric for exams and minimal overall numerical percentage to pass (70%). Numerical percentages will be maintained within the program grade book and student records to continue with monitoring academic progress. The use of the S/U option will be used for reporting on their University transcript.
- The final grade for this course will be derived from 3 areas:

Quizzes (20%) – 4 quizzes (5% each and 20% of final grade)

Laboratory Distribution (40%) -

Interview #1 and HPI #1 - The oral presentation and written report will be graded on a **Pass/Fail** basis (any component that results in an initial failure will require remediation at the laboratory instructor's discretion and direction).

Interview #2 and HPI #2 – – The interview as well as oral presentation will be graded on a **Pass/Fail** basis and the written report will receive a numerical grade **(10%)**. **Interview #3 and HPI #3** – The interview will be graded on a **Pass/Fail** basis and the oral presentation (**presenting only the HPI**) as well as a full written report (including the CC, HPI, PMH, FH, SH, ROS) will receive numerical grades **(Oral = 10% and Written Report = 20%)**.

Interview #4 (Patient Perception Questionnaire = PPQ) – Although the interview will receive a numerical grade based on the student's professionalism that is evaluated by the standardized patient at the Harrell Center, it will receive an overall grade of **Pass/Fail**.

Final Examination (40%)

A final grade of 70% or higher is required to pass this course.
