S/U Only StatusChange to S/U Only

Change Contact Type?No

Change Rotating Topic Designation?No

Change Repeatable Credit?No

Change Course Description?No

Change Prerequisites?No

Change Co-requisites?No

RationaleThe UF School of Physician Assistant Studies, after a self-study analysis of the curriculum, is requesting conversion to a Pass/Fail (S/U) curriculum of the didactic year (first year). Currently UFSPAS uses a grading scale (A-E) to evaluate and monitor students' progress through both years of their education. The clinical year (second year) of training will continue using a grading scale for the core clinical rotations to allow students to achieve a ranking should they further their education.

The following reasons provide the rationale for moving towards a Pass/Fail (S/U) curriculum during the didactic year of education:

1. Allows students to become self-directed learners (intrinsic motivation)
2. Decreases/eliminates competition between students
3. Promotes more collaborative learning
4. Positively enhances students sense of well-being
5. Aligns us with the College of Medicine (COM) who has successfully adopted a Pass/Fail curriculum.
6. Fosters development of competency based evaluation
7. Decreases faculty/student tensions of assigning "fair" grades

Please look favorably on this request

PAS 5022C: Gross and Radiographic Anatomy [CA]

- <http://apps.aa.ufl.edu/Approval/Requests/Info/10583>
- **Change S/U Only:** Yes
- **S/U Only Status:** Change to S/U Only
- **Rationale:** The UF School of Physician Assistant Studies, after a self-study analysis of the curriculum, is requesting conversion to a Pass/Fail (S/U) curriculum of the didactic year (first year).
- Each course to be designated as a Pass/Fail (S/U) option will still maintain their current numerical grading rubric for exams and minimal overall numerical percentage to pass (70%). Numerical percentages will be maintained within the program grade book and student records to continue with monitoring academic progress. The use of the S/U option will be used for reporting on their University transcript.
- In the Anatomy section two written and two practical examinations will be given, i.e., a mid-term and Final.
- Exam 1 practical 35 points/ Written 95 points (10 extra points for histology)
- Exam 2 practical 35 points/ Written 85 points
- The points of the practical and written exam will be added together and a percentage out of 100 will be calculated as the final score.
- The breakdown of the Radiographic Anatomy grade is as follows: Quiz I (Chest) – 10% / Quiz II (Abdomen) – 10% / Quiz III (Skull/Spine) – 10% / Total Quiz percentage : 30%
Comprehensive Exam : 70%
- This final score will be 80% of the overall Gross Anatomy score combined with 20% of the Radiologic Anatomy section.
- A score of 70% or higher is required to pass this course.
