Rationale The faculty reviewed the curriculum and determined that Fundamentals of Tourism could be completed without the course LEI 3301 Principles of Tourism as a pre-requisite. The program faculty does not feel it is necessary to keep this course as a pre-requisite as this course initially reviews/covers the basic principles of tourism and then transition extensively into planning and development issues. Also, this is a foundational discipline specific content course about planning and development issues in the tourism and hospitality industry, and sophomores would be able to take the course, and get additional familiarity to the major.
