**Pedagogical Rationale/Justification** The Music Education Faculty have been working for nearly two years to reflect on, discuss, and revise the undergraduate music education curriculum. The revisions are based on the analysis of data generated by a variety of stakeholders (students, cooperating teachers in K-12 schools, music education faculty, Florida Teacher Certification Exam scores) gathered over several years. The revised curriculum will allow the faculty to better prepare our students to meet the challenges of teaching music in today's schools. Specific details and justifications of each course are noted on the attached documents.

**Impact on Enrollment, Retention, Graduation** If approved, the new curriculum will be put into place for students who matriculate in Fall 2019. All changes will be transitioned as these students move through the program. Students who are currently in the major should not be affected by the revisions. Should a current student have issues related to the curriculum revisions, they will be accommodated on an individual basis.

**Assessment Data Review** Evaluation of student teachers by cooperating teachers.

Evaluation of student teachers by university supervisors.

Student exit surveys.

Florida Teacher Certification Exams (FTCE)

Music Education faculty formal and informal assessments of students in core courses.

**Academic Learning Compact and Academic Assessment Plan** The music education SLOs were also revised this fall and are being sent through the university approval system.
