Current Co-requisites None

Proposed Co-requisites BME 3508

Rationale BME3508 will become a required course within the BME curriculum beginning in the 2018-19 catalog year and students must take it as a corequisite with BME4503. Knowledge of circuits will be required; EEL 3003 (3 credits) will be the new circuits requirement for the 2018-19 catalog year. We will still accept EEL 3111C if students opt to take this course (4 credits).
