Subject: Request Related to HAS 6115

The College of Pharmacy is submitting a proposal for a pharmacy leadership certificate to the University Curriculum Committee. We need your support to include HAS 6115 as a selective in the curriculum. UCC requires your input on the attached form. (Pharmacy Request – HAS 6115 for a certificate.pdf)

By understanding HCOs in the depth covered in HAS 6115, the certificate students would be prepared to influence change in the profession for the benefit of patients, pharmacists and the health care systems in which we work.

HAS 6115 would be a selective course in the curriculum and we anticipate 12-15 students per year would want to enroll in the course. If these numbers are too high, we can adjust it since this is a selective course and students have another course as an option.

If easier to chat in person, I can be available by phone or in person.

Thank you in advance for your assistance,
Diane
