Rationale and Place in Curriculum Medication Therapy Management is an important part of pharmacy practice and there are excellent career opportunities for students who have the related knowledge and skills.

The courses that are part of the certificate are taken across years 2,3 and 4. The courses that are taken each year progressively develop the student's knowledge, skills, and professionalism related to medication therapy management.

The year 1 courses of the PharmD curriculum provide foundational knowledge.

- Student Learning Outcomes** • Demonstrate foundational knowledge to providing MTM services
- Develop an MTM business plan by assessing various practice models, MTM documentation software platforms, and basic financial principles
 - Provide patient care through performing Comprehensive Medication Reviews (CMRs)
 - Demonstrate self-efficacy in providing MTM Services
