Course Description This course is designed for students to acquire and apply knowledge and principles of personalized nursing care for women, children and families. Emphasis is on applying a biobehavioral approach to care of the child-bearing and child-rearing family.

Prerequisites NUR 3XXX Lead and Inspire 2: Research and Evidence-Based Nursing Practice

NUR 3XXX Pathophysiology/Pharmacology in Nursing 2

NUR 3XXXC Principles of Personalized Nursing Care 2

NUR 3XXXC Clinical Reasoning and Personalized Nursing Care: Adult Acute Conditions

NUR 3XXXC Clinical Reasoning and Personalized Nursing Care: Mental Health

Co-requisites None

Rationale and Placement in Curriculum This is an upper division third semester course in the nursing undergraduate program. This new course is part of the redevelopment of our undergraduate program.

Course Objectives 1. Analyze the health care needs of women, children, and families based on biobehavioral factors, vulnerabilities, and preferences in the design and delivery of family focused personalized nursing care

2. Integrate evidence-based findings into personalized nursing care for the family unit including reproductive health and pregnancy.

3. Utilize interprofessional collaboration to manage health conditions when implementing family focused personalized nursing care.

4. Apply principles of pharmacologic and non-pharmacologic management when delivering family focused personalized nursing care

5. Advocate for women, children, and families using therapeutic communication to provide support for health care decisions.

6. Apply core professional nursing values and legal/ethical principles when providing care to adults with chronic conditions.

Course Textbook(s) and/or Other Assigned Reading Betz C & Krajicek M. (2017). Guidelines for Nursing Excellence in the Care of Children, Youth, and Families, 2nd edition. Springer:

Weekly Schedule of Topics DATE TOPIC/EVALUATION

Week 1-4 Family planning, sexuality, preconception care, male/female infertility, risk assessment
Personalized pregnancy, labor and birth, postpartum, and newborn nursing care
Contraception male/female, breastfeeding, family developmental tasks

Week 5-8 Parenting/Family needs assessment, including culture, values, beliefs and preferences. Facilitating family/parental decision making in evidenced based personalized nursing care planning

Childhood growth and developmental assessment from infancy through adolescence, health promotion, Preventive care, Level 1 community related services/resources

Week 9-12 Assessment data sources, including patient, family, diagnostic tests including genetic screening, family/parental privacy and rights

Evidence based personalized nursing care of the hospitalized child from infancy to adolescence with acute illness across systems (eg, Respiratory, neuro/neuromuscular, GI/GU, Cardiovascular, Endocrine, Musculoskeletal)

Level II & III Community related services/resources

Week 13-15 Personalized nursing care of the child with chronic illness, The medical home, Community related services/resources (e.g., rehabilitation, long term care)

Health education/patient teaching/health counseling

<p><u>Program Objective:</u></p> <ol style="list-style-type: none"> 1. Integrate knowledge, skills, and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the life span and across healthcare environments. 2. Provide leadership in the delivery of safe, high quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments. <p><u>Course Objective:</u></p> <ol style="list-style-type: none"> 1. Apply concepts of wellness promotion and disease, injury, and disability prevention with selected individuals. 5. Assess environmental factors that influence the healthcare needs and preferences of individuals as members of families. 	<p>CLIENT-CENTERED CARE</p> <p>Assess</p> <ul style="list-style-type: none"> ▪ Collect relevant subjective and objective data ▪ Assess each subsystem <ul style="list-style-type: none"> ✓ Affective ✓ Biological ✓ Cognitive ▪ Assess environment and safety ▪ Assess fluid balance ▪ Organize data using the functional health patterns (FHP) 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Areas of Evaluation	S	U	S	U
	Analyze <ul style="list-style-type: none"> ▪ Cluster data into identifying categories ▪ Examine data relationships and patterns ▪ Identify realistic nursing problems 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Plan <ul style="list-style-type: none"> ▪ State realistic short and long term goals for client ▪ Relate goals to identified nursing problems ▪ Plan client-centered nursing interventions 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Implement <ul style="list-style-type: none"> ▪ Provide safe client-centered care across the lifespan ▪ Promotes wellness and risk reduction ▪ Perform basic nursing assessment and care ▪ Adheres to infection control and standard precautions 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
	Evaluate <ul style="list-style-type: none"> ▪ Monitor client outcomes ▪ Use evaluative criteria for measurement of progress in each client subsystem ▪ Suggest changes to plan of care and revise according to functional health pattern 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Program Objective:</u> 7. Utilize wellness promotion and illness prevention strategies with individuals and groups to improve population health outcomes across the lifespan.	WELLNESS PROMOTION & ILLNESS PREVENTION <ul style="list-style-type: none"> • Identify risk factors for specific diseases • Assess the physical and social environments influence on wellness and access to healthcare • Apply wellness promotion and disease prevention strategies in selected settings-primary prevention • Participate in screening activities in selected settings-secondary prevention • Provide health teaching and counseling in selected settings-primary, secondary and tertiary prevention • Successfully demonstrate selected psychomotor skills • Identify scientific principles that relate to selected psychomotor skills 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<u>Course Objective:</u> 1. Apply concepts of wellness promotion and disease, injury, and disability prevention with selected individuals. 3. Apply primary, secondary, and tertiary preventions strategies. 5. Assess environmental factors that influence the healthcare needs and preferences of individuals as members of families. 6. Utilize principles of health teaching and counseling with clients. 7. Utilize scientific principles in the demonstration of selected psychomotor skills.					

	Areas of Evaluation	S	U	S	U
<p><u>Program Objective:</u> 6. Communicate and collaborate as members of interprofessional teams to deliver safe, high quality healthcare</p> <p><u>Course Objective:</u> 2. Utilize therapeutic communication techniques.</p>	<p>COMMUNICATION & COLLABORATION</p> <ul style="list-style-type: none"> ▪ Address clients and families in a respectful manner ▪ Adapt communication to the needs of clients and families ▪ Validate communication with client and team members ▪ Engages as a team member in <ul style="list-style-type: none"> ✓ Laboratory, clinical, and community settings ✓ Interdisciplinary Family Health (IFH) ▪ Communicates effectively with staff and other community resource individuals ▪ Prepare for and participate in seminar 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p><u>Program Objective:</u> 1. Integrate knowledge, skills, and values derived from a solid base in liberal education to deliver quality care to individuals and groups across the life span and across healthcare environments. 8. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.</p> <p><u>Course Objective:</u> 5. Assess environmental factors that influence the healthcare needs and preferences of individuals as members of families.</p>	<p>DIVERSITY</p> <ul style="list-style-type: none"> • Provide culturally-sensitive care • Provide non-judgmental care in a variety of settings • Collaborates for Windshield Assessment • Completes IFH assessments 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Areas of Evaluation	S	U	S	U
<p><u>Program Objective:</u> 2. Provide leadership in the delivery of safe, high quality healthcare to diverse individuals and groups across the lifespan and across healthcare environments. 8. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.</p> <p><u>Course Objective:</u> 4. Utilize principles of privacy and confidentiality in the interaction with clients.</p>	<p>SAFETY</p> <ul style="list-style-type: none"> • Identify potential hazards for clients across the lifespan • Recognize and correct safety errors when noted • Complete required safety modules for IFH • Maintains HIPAA Privacy Rule standards 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p><u>Program Objective:</u> 3. Utilize current evidence to improve healthcare outcomes for clients.</p> <p><u>Course Objective:</u> 6. Utilize principles of health teaching and counseling with clients.</p>	<p>EVIDENCE-BASED PRACTICE</p> <ul style="list-style-type: none"> ▪ Anticipate consequences of basic nursing interventions ▪ Adapt nursing care as client's health condition changes with guidance ▪ Relate content from nursing curriculum to various clinical settings ▪ Anticipate factors that impede effectiveness of treatment plan across the lifespan 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p><u>Program Objective:</u> 8. Integrate professional values in the delivery of safe, culturally-sensitive care to clients across the lifespan.</p>	<p>PROFESSIONALISM</p> <ul style="list-style-type: none"> ▪ Accountable for own actions ▪ Accountable for attendance and punctuality ▪ Accountable for professional appearance and conduct ▪ Responsible for integration of previous learning ▪ Initiate the seeking of new information when needed ▪ Critique behavior to identify strengths and areas requiring more learning goals ▪ Accept constructive criticism and modify behavior accordingly ▪ Develop personal goals for professional role ▪ Differentiates personal values from professional values 	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
