Course|Modify for request 12040

Info

Request: ESI 4327C Matrix and Numerical Methods in Systems Engineering
Description of request: This request is only about changing the first digit of the course number from 4 to 3, making this a 3000 level course. Everything else (content, contact hours, pre-requisites) will remain unchanged.
Submitter: Serdar Kirli kirli@ise.ufl.edu
Created: 11/8/2017 3:59:11 PM
Form version: 1

Responses

Current Prefix
Enter the current three letter code (e.g., POS, ATR, ENC).

Response:
ESI

Course Level
Select the current one digit code preceding the course number that indicates the course level at which the course is taught (e.g., 1=freshman, 2=sophomore, etc.).

Response:
4

Number
Enter the current three digit code indicating the specific content of the course based on the SCNS taxonomy and course equivalency profiles.

Response:
327

Lab Code
Enter the current lab code. This code indicates whether the course is lecture only (None), lab only (L), or a combined lecture and lab (C).

Response:
C

Course Title
Enter the current title of the course as it appears in the Academic Catalog.

Response:
Matrix and Numerical Methods in Systems Engineering

Effective Term
Select the requested term that the course change(s) will first be implemented. Selecting “Earliest” will allow the change to be effective in the earliest term after SCNS approval. If a specific term and year are selected, this should reflect the department’s expectations. Courses cannot be changed retroactively, and therefore the actual
effective term cannot be prior to SCNS approval, which must be obtained prior to the first day of classes for the effective term. SCNS approval typically requires at least 6 weeks after approval of the course change at UF.

Response:
Earliest Available

**Effective Year**
*Select the requested year that the course change will first be implemented. See preceding item for further information.*

Response:
2018

**Requested Action**
*Indicate whether the change is for termination of the course or any other change. If the latter is selected, all of the following items must be completed for any requested change.*

Response:
Other (selecting this option opens additional form fields below)

**Change Course Prefix?**

Response:
No

**Change Course Level?**
*Note that a change in course level requires submission of a course syllabus.*

Response:
Yes

**Current Level**

Response:
4

**Proposed Level**

Response:
3

**Change Course Number?**

Response:
No
Change Lab Code?
Note that a change in lab code requires submission of a course syllabus.

Response:
No

Change Course Title?

Response:
No

Change Transcript Title?

Response:
No

Change Credit Hours?
Note that a change in credit hours requires submission of a course syllabus.

Response:
No

Change Variable Credit?
Note that a change in variable credit status requires submission of a course syllabus.

Response:
No

Change S/U Only?

Response:
No
Change Contact Type?
Response:
No

Change Rotating Topic Designation?
Response:
No

Change Repeatable Credit?
*Note that a change in repeatable credit status requires submission of a course syllabus.*
Response:
No

Maximum Repeatable Credits
*Enter the maximum credits a student may accrue by repeating this course.*
Response:
4

Change Course Description?
*Note that a change in course description requires submission of a course syllabus.*
Response:
No

Change Prerequisites?
Response:
No

Change Co-requisites?
Response:
No
Rationale

Response:
This is a critical tracking course for students in Industrial and Systems Engineering. Consequently, it must be completed within 5 semesters after entering UF. In the 8-semester suggested course plan in the undergraduate catalog, it appears in the 4th semester. Therefore, it is more appropriate to designate it as a 3000-level course.
Instructor:
Distinguished Professor Panagote (Panos) M. Pardalos, http://www.ise.ufl.edu/pardalos/
Email Address: pardalos@ufl.edu
Office location: 401 Weil Hall
Office Hours: by appointment

Teaching Assistant:
Arsenios Tsokas
Office location: 406 Weil Hall
Email address: artsokas@ufl.edu
Office hours: TBD

Course Description
Catalog Description: Theory and application of vector, matrix and other numerical methods to systems problems. Simultaneous linear equations, characteristic values, quadratic forms, error analysis, use of series, curve fitting, nonlinear equations, discrete methods. The laboratory sessions will emphasize on numerical solutions using MATLAB.

Course Pre-Requisites / Co-Requisites
MAC 2313, MAP 2302 with minimum grades of C

Course Objectives
- To understand the underlying fundamental ideas behind numerical methods and the concepts behind the techniques presented in the course.
- To grasp the analysis of algorithms, computational complexity, and other concepts and modern developments in numerical methods
- To develop facility with the techniques themselves, and to be able to solve small size problems analytically
- To learn how to implement the methods in the MATLAB programming environment (ability to program in at least one high level language such as C, C++, FORTRAN, VB, etc. will be useful, but is not a requirement).

Meeting Times and Location
M, W Periods 9-10 (4:05 PM - 6:00 PM), FLG 0280
F Period 9 (4:05 PM - 4:55 PM), FLG 0280

Materials and Supply Fees
N/A

Professional Component (ABET):
This course teaches the basic concepts in the theory and applications of vector, matrix and other numerical methods to systems problems. Students will develop and enhance their ability to address various problems applying numerical methods and modern software (MATLAB).
### Relation to Program Outcomes (ABET):

<table>
<thead>
<tr>
<th>Outcome</th>
<th>Coverage*</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. an ability to apply knowledge of mathematics, science, and engineering</td>
<td>High</td>
</tr>
<tr>
<td>b. an ability to design and conduct experiments, as well as to analyze and interpret data</td>
<td></td>
</tr>
<tr>
<td>c. an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability</td>
<td></td>
</tr>
<tr>
<td>d. an ability to function on multidisciplinary teams</td>
<td></td>
</tr>
<tr>
<td>e. an ability to identify, formulate, and solve engineering problems</td>
<td></td>
</tr>
<tr>
<td>f. an understanding of professional and ethical responsibility</td>
<td></td>
</tr>
<tr>
<td>g. an ability to communicate effectively</td>
<td></td>
</tr>
<tr>
<td>h. the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context</td>
<td></td>
</tr>
<tr>
<td>i. a recognition of the need for, and an ability to engage in life-long learning</td>
<td></td>
</tr>
<tr>
<td>j. a knowledge of contemporary issues</td>
<td></td>
</tr>
<tr>
<td>k. an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.</td>
<td>Medium</td>
</tr>
</tbody>
</table>

*Coverage is given as high, medium, or low. An empty box indicates that this outcome is not part of the course.

### Recommended Textbooks

- Title: **Introduction to Linear Algebra**
  - Author: Gilbert Strang

- Title: **Numerical Methods and Optimization: An Introduction**
  - Authors: S. Butenko and P. Pardalos
  - Chapman and Hall, 1st edition

### Course Schedule

The course Schedule is offered as a guide. This means that it is subject to change, depending on the pace of the class. The instructor might choose to cover parts of the curriculum more extensively, or give extensions to deadlines. The dates of the exams might be subject to change depending on the progress of the class.

<table>

<td></td>
</tr>
</tbody>
</table>
# Attendance Policy

Attendance is very strongly encouraged - you are responsible for the announcements made in class. Students are expected to know the material covered in the prerequisite courses. When necessary, they are expected to relearn material from these courses on their own.

**This is not a course where you can do well on exams solely by blindly applying formulas.** In order to get the most out of the course, try to stay ahead. By the weekend, make sure you have at least reviewed the material covered in the lectures and readings of the preceding week. In addition to reading, working out extra exercises on your own will help in improving your understanding of the material. With diligent practice, you can prepare yourself to the point where, on exams, instinct takes over and the problems seem straightforward.

# Exam Policy

You are expected to be present without exception and to plan any travel around these dates accordingly. Medical emergencies are of course excluded if accompanied by a doctor's note. A note indicating that you were seen at the health center the day of the exam is not sufficient documentation of a medically excused absence from an exam. The note must say that you were medically unable to take the exam.

If you fail to take the exam on the assigned day and do not have a valid excuse, there will be no make-up exam and you will be given a zero (0) on the exam. Employment interviews, employer events, weddings, vacations, etc. are not excused absences.

# Evaluation of Grades

Your performance in the course will be evaluated based on three in-class exams and on homework assignments, as follows:

(a) Homework: **25%**
(b) Exam 1: **25%**
(c) Exam 2: **25%**
(d) Exam 3: **25%**

Homework assignments will be given on a regular basis. The three exam are tentatively scheduled as follows:

**Exam 1 date:** Wednesday, February 7  
**Exam 2 date:** Wednesday, March 21  
**Exam 3 date:** Wednesday, April 25

Exam Grading Appeals: every effort will be made to ensure that grading is as objective and fair as possible. If you believe that there is an error in the grading, please submit, in writing, an appeal within one week of your exam being returned. However, please be advised that if you submit such an appeal, the entire exam will be regraded to ensure that all parts are properly graded. As such, your grade on the exam could increase or decrease based on the secondary grading.
Grading Scale

More information on UF grading policy may be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Students Requiring Accommodations
Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, https://www.dso.ufl.edu/drc) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Course Evaluation
Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu/evals. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/.

University Honesty Policy
UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Software Use
All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.
**Student Privacy**
There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: [http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html](http://registrar.ufl.edu/catalog0910/policies/regulationferpa.html)
