Description	The UF Digital Worlds Institute wishes to do its part to support the success of the UF
	Online initiative while at the same time continuing our ongoing research and
	development of new and hybrid models for real-time human-to-human interaction in
	on-line and on-campus learning experiences.

Responses

Name: Digital Arts & Sciences Major or Minor Code : DAR Effective Term: Spring Effective Year : 2017

Differences from Residential Program : There are no differences in curriculum. **Pedagogical Rationale/Justification:** Our existing online program in Digital Arts & Sciences (DAS) will offer an important curricular option for 21st century students. **Impact on Existing Residential and Online Programs:** At this point the only potential impact foreseen may be on the available faculty and staff time devoted towards our current research focus in real-time synchronous on-campus and on-line delivery methodology.

Digital Arts and Sciences

The digital arts and sciences (DAS) program crosses college boundaries between fine arts, communications and technology. This degree is an interdisciplinary program with three specialization areas.

About This Major

- College: Fine Arts
- Degree: Bachelor of Arts in Digital Arts and Sciences
- Specializations: Design and Production, Media and Storytelling, Systems Design
- Credits for Degree: 120
- Minor: No
- Combined-Degree Program: No
- Academic Learning Compact: Digital Arts and Sciences (Fine Arts)
- · Website: www.digitalworlds.ufl.edu/programs/ba-in-das

Overview

The Bachelor of Arts in Digital Arts and Sciences (BADAS) crosses traditional college boundaries between communications, engineering and the arts. Students may choose from three innovative interdisciplinary tracks, combining skills in technology, design and digital storytelling. They will become versed in contemporary issues in social and interactive media, critical thinking and creative design solutions. The DAS graduate will gain experience working in collaborative teams on media projects including serious and applied games, live digital performances and virtual worlds.

Department Requirements

In addition to meeting university-level requirements, students seeking admission to this program must submit a personal statement of intent and supplemental support materials directly to the UF Digital Worlds Institute. The content and quality of these submissions, in addition to previous academic GPA, will be significant factors to determine admission into the program.

The personal statement refers to an original document created by the applicant that details interests, motivations and rationale for seeking program admission. The statement should be one to two pages in length and demonstrate a serious intent to pursue the program and the writing ability appropriate for admission as an upper-division student at a major American university.

Support materials refer to a body of original creative or technical work authored, documented and presented in a contemporary digital format. Depending on the applicant's intended area of concentration in the program (systems design, media and storytelling, or design and production), the support materials would contain examples of the applicant's best original work completed before seeking admission to the BADAS program. The statement and support materials are due by March 15 of the sophomore year for admission into upper-division coursework. Students may not take 3000/4000-level DIG courses without submission of both the personal statement and support materials.

Students must complete all critical-tracking courses with minimum grades of C in each course and the minimum critical-tracking GPA must be 2.5. Students who do not meet these requirements will be placed on academic probation and required to prepare a probation contract with an adviser. Students normally are given two terms in which to remove their deficit points; however, students who do not satisfy the conditions of the first term of probation may be dismissed from the program.

Design and Production Media and Storytelling

Systems Design

Design and Production

Critical Tracking

To graduate with this major, students must complete all university, college and major requirements.

Equivalent critical-tracking courses as determined by the State of Florida Common Course Prerequisites may be used for transfer students.

Semester 1

- Complete 1 of 4 critical-tracking courses: THE 2000; THE 3234; CPO 2001 or INR 2001; or RTV 2100 with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 2

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 3

- Complete 1 additional critical-tracking course with a minimum grade of C
- 2.5 GPA required for all critical-tracking courses
- 2.0 UF GPA

Semester 4

- Complete remaining critical-tracking courses with minimum grades of C
- 2.5 GPA required for all critical-tracking courses

• 2.0 UF GPA

Recommended Semester Plan

To remain on track, students must complete the appropriate critical-tracking courses, which appear in bold.
