| **Course Director* & Lecturers** | Dr. Cesar Sabates*  
Dr. Mauricio Tijerino  
Dr. William Lamas  
Dr. John Paul Gallardo  
Dr. Frank Granda  
Invited Speakers |
| **When Course/Seminar is offered** | Year 2, Spring Semesters |
| **Course/Seminar Objective(s)** | The course continues to increase the resident's knowledge in treatment planning, radiographic or CBCT analysis, patient selection, medical considerations, independent surgical techniques, and patient case presentations for placement and restoration of single and multiple dental implants. Presentations will be made to peers and private practitioners attending the course.  
**Major Areas of Coverage:** Implant case selection, diagnostics evaluation and workup, independent surgical placement and restoration with case presentation. Attendance at the Implant Seminars Fall symposia and other implant/restorative driven meetings in South Florida will also be required during this course. |
| **Specific Goals and Objectives** | • The resident will become knowledgeable of the criteria for patient selection  
• The resident will become knowledgeable of pre-surgical treatment planning  
• The resident will become knowledgeable of placement technique and recovery options  
• The resident will become knowledgeable of the various prosthodontic restorations available  
• The resident will be exposed to implant complications and solutions  
• The resident will understand special considerations in treatment planning  
• The resident will communicate his/her role as member of the Implant Team |
Session/ Seminar 1, 2 hours:
Computer Generated Custom Abutments – Dr. Sabates

Session/ Seminar 2, 2 hours:
Advanced Grafting Techniques – Drs. Gallardo & Lamas

Session/ Seminar 3, 2 hours:
The Atrophic Mandible - Implant Solutions – Dr. Granda

Session/ Seminar 4, 2 hours:
Orthodontic Interdisciplinary Care – Invited speaker

Recurring Monthly, 6 hours:
Literature Review / Treatment Planning – Senior Residents

Examination: 1 hour

Credit Hours: 1

Reference/Course Materials:
- Handouts will be presented during each lecture.

Evaluation and Grading:
This course is graded Satisfactory (S) or Unsatisfactory (U). The method of evaluation for the course is based on:

- Score on the written examination
- Performance of scheduled laboratory exercise(s) and presentations

The examination in this course will be short answer, multiple choice or short essay graded on a 100 point scale. The laboratory exercise(s) and presentations are graded on a 0 to 4 point scale.

Grade Weights:
- Examination: 50% (S = 70% or higher)
- Laboratory/Presentations: 50% (S = 3-4 points)

Residents must satisfactorily complete all didactic examinations, laboratory, and presentations to pass the course. Residents are encouraged to review examinations and laboratory and other assignments with the course director if minimum satisfactory grades are not achieved.
Remediation:
Residents failing to receive passing grades will be awarded a failing grade and be given the opportunity to remediate.

Written Examinations may be remediated one time.
Residents failing to satisfactorily complete the remediation within the specified time frame will be awarded a failing U grade and be required to repeat the course. A recommendation will be made that Residents awarded a final failing grade of U meet with the AEGD faculty to discuss further action.

(This course is offered once per year and enrollment is dependent upon the Resident’s acceptance into the program with the next AEGD class.)

This course must be passed successfully in order to maintain clinic privileges.

Deadline for completing this course is the last day of the scheduled semester, no extensions will be granted for incomplete work. Failure to complete the class assignments by the specified deadlines will result in a U which will require the Resident to re-enroll the next time the course is offered. Residents will lose clinic privileges if a U grade is received in any residency course.

College Class Attendance policy:

College of Dentistry Make-up Exam Policy
Make-up examinations will be scheduled only in the event of sickness (documented by a physician’s note) or a documented personal or family emergency. Students must contact the Office of Education and/or the Course Director to notify them as soon as possible of any such events warranting an excused absence. It is the student’s responsibility to schedule a make-up exam with the Course Director within 48 hours of their return to the College. Students who do not have an excused absence from an examination are, at the discretion of the Course Director, subject to any or all of the following: 1) A "U" grade or a "0" for the examination missed, or 2)
A make-up examination which may be cumulative in composition. The make-up examination or failing grade given will be assigned the same value (graded weight) as the original examination.
