RationaleThe combined plant Identification course has traditionally been divided so that the lecture and laboratory portions each contribute 50% to the final grade. Recently, when the course was broken into two portions for delivery to distance locations, it was not possible to split the course into two equal portions because of its 3-credit valuation. Currently, the lecture is worth 1 credit and the lab is worth 2 credits. The credit for necessary lecture materials was inordinately reduced because of the split, this proposed adjustment to course content will be more appropriate for a 2:1 credit lecture:laboratory split rather than the previous ratio.

ENVIRONMENTAL PLANT IDENTIFICATION AND USE
ORH 3513 (Lecture) – 2 Credits
SUMMER C, 2016

COORDINATOR / LECTURER: Dr. Bart Schutzman

OFFICE: Rm 1531 Fifield Hall, UF Gainesville Campus

TELEPHONE: (352) 273-4572

E-MAIL: bart@ufl.edu. I will check the e-Learning site daily and try to answer your inquiries within one business day. In this way, I can make sure valid and helpful questions can benefit the entire class.

You may email me through e-Learning (Canvas) mail or UF email. You are also welcome to make an appointment and visit with me should you be in the area.

CATALOG DESCRIPTION:

Identification, growth characteristics, culture and use of common landscape and greenhouse plants. Materials include trees, shrubs, vines, ground covers, lawn grasses and floriculture crops. Emphasizes temperate plants.

COURSE OBJECTIVES: Upon completing this course, students should be able to:

- 1) Comprehend fundamental plant morphological characteristics and use them to identify common landscape and other plant materials**
- 2) Learn approximately 50 species online along with basic terminology used to describe them**
- 3) Apply basic principles of botanical and horticultural taxonomy and nomenclature to describe plants**
- 4) Understand the origin, use and function of plants in our environment**

REQUIRED READING

Required Textbooks:

Dehgan, B. 1998. Landscape Plants for Subtropical Climates. The University Press of Florida.

Harris, J. G. and Harris, M. W. 2006 (2nd edition). Plant Identification Terminology – An Illustrated Glossary. Spring Lake Publishing, Spring Lake, UT

Additional references and study guides will also be provided when appropriate.

COURSE PREREQUISITES: Junior level standing or higher, or permission of the instructor.

CONTENT AND ORGANIZATION:

The plant identification program for undergraduate students is divided into two courses; this is the syllabus for the asynchronous lecture course (ORH3513). There is a second syllabus for the live laboratory (ORH3513L). Both must be

taken concurrently. Labs are conducted on main campus and at designated UF Research and Education Centers across the state.

Lectures are in the form of modular video presentations. They are asynchronous and Web-based. Lecture quizzes and discussions are scheduled in tandem with laboratory meetings, which are separate and live.

Lecture materials consist of:

- 1) Approximately 40 video modules, along with their PDF scripts and PDF handouts of the PowerPoint presentations,
- 2) Ten plant study modules, covering 50 species. These are either specific taxonomic groups (e.g., orchids, cacti) or horticultural categories (house plants, succulents, landscape plants), along with associated terminology and conceptual materials.
- 3) Assignments to reinforce lecture materials, covering the diverse topics of plant nomenclature, classification, vegetative, floral and fruit morphological terminology, and use and creation of dichotomous keys

How Plant Materials are Learned

Other than the plants taught at various sites in the live laboratory, the remaining 50 plants will be taught in online modules in the asynchronous lecture portion of the course. Plants in the online plant modules are well-known throughout the world and can be connected conceptually by the student with both the live lab and the lecture material. They will be featured together with their significant morphological characteristics.

Lecture materials include terminology used in plant identification, rules and application of plant nomenclature (botanical and horticultural), relevant plant materials to illustrate terminology and other lecture topics, and functional aspects of horticultural plants in our environment. The live laboratory sessions will build on lecture material and expose students to plant materials related to lecture topics.

Weekly lecture quizzes, in-class assignments and study exercises will be given during weekly lecture discussion time. The lecture midterm will be given online using the Canvas Course Management System, the final lecture examination will be in-person and proctored. All grades will be posted to Canvas:

<https://lss.at.ufl.edu>

Sign onto this site with your Gatorlink credentials to access current grades and announcements. If at any time you experience problems with Canvas then it is your responsibility to contact the UF Computing Help Desk at: <http://helpdesk.ufl.edu> or (352) 392-4357. Please make sure to have Canvas Notifications enabled.

COURSE EVALUATIONS:

Students are expected to provide feedback on the quality of instruction in this course based on ten criteria. These evaluations are conducted online at

<https://evaluations.ufl.edu>. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at <https://evaluations.ufl.edu>.

ASSESSMENT AND GRADING:

For information on current UF policies for assigning grade points, see <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

ORH3513 - Lecture Assessments:

Weekly Quizzes	20% of course grade
Midterm Exam	40% of course grade
Final Exam	40% of course grade

Grade Range: Letter grades will be based on the following scale:

A	92.5-100
A-	89.5-92.4
B+	86.5-89.4
B	82.5-86.4
B-	79.5-82.4
C+	76.5-79.4
C	72.5-76.4
C-	69.5-72.4
D+	66.5-69.4
D	62.5-66.4
D-	59.5-62.4
E	<59.5

ABSENCES AND MAKE-UP WORK

Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

ACADEMIC HONESTY

As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: ***"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."*** You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: ***"On my honor, I have neither given nor received unauthorized aid in doing this assignment."***

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g. assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action.

For more information regarding the Student Honor Code, please see:
<http://www.dso.ufl.edu/SCCR/honorcodes/honorcode.php>.

*******PLEASE NOTE*******
ALL EXAMS ARE CLOSED NOTE / BOOK.
DISHONESTY WILL NOT BE TOLERATED IN THIS COURSE.

SOFTWARE USE

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

CAMPUS HELPING RESOURCES

Health and Wellness Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

- *U Matter We Care*, <http://www.umatter.ufl.edu>. If you or a friend are in distress, please contact umatter@ufl.edu or 352 294-2273 so that a team member can reach out to the student

Services for Students with Disabilities

- The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation

0001 Reid Hall, 352-392-8565, <http://www.dso.ufl.edu/drc/>

STUDENT COMPLAINTS

Each online distance learning program has a process for, and will make every attempt to resolve, student complaints within its academic and administrative departments at the program level. See <http://distance.ufl.edu/student-complaints> for more details.

INFORMATION SOURCES: The tentative lecture schedule is presented below.

NOTE: Visual nature and memorization requirements of this course make it imperative that students view all lectures and read all handouts.

TENTATIVE LECTURE SCHEDULE (Subject to change at the coordinator's notice):

WK	DATES	TOPIC
1	5/9-5/13	1) Introduction 2) The Whole Plant 3,4) Plant Nomenclature I, II
2	5/16-5/20	5) Plant Nomenclature III 6) Leaf Arrangement and Attachment 7) Stipules 8) Leaf Complexity and Venation

WK	DATES	TOPIC
3	5/23-5/27	9) Leaf Shape 10) Leaf Apices 11) Leaf Bases 12) Leaf Margins
4	5/30-6/3	13) Leaf Textures and Surfaces 14,15) Modified Structures I,II 16) Plant Forms
5	6/6-6/10	17) Plant Life Cycle and Persistence 18) Plant Variation 19,20) Flowers I, II
6	6/13-6/17	LECTURE MIDTERM
7	6/20-6/24	SUMMER BREAK
8	6/27-7/1	21) Flowers III 22,23) Inflorescences I, II 24) Fruits I
9	7/4-7/8	25,26) Fruits II, III 27,28) Plant Taxonomy I, II
10	7/11-7/15	29) Plant Groups 30) Ferns and Allies 31) Gymnosperms 32) Cycads
11	7/18-7/22	33) Angiosperms 34) Orchids 35) Succulents 36) Dichotomous Keys
12	7/25-7/29	37,38) Climate and Phytogeography I, II 39) Landscaping Principles
13	8/1-8/5	LECTURE FINAL
