RationaleSTA 2023 is simply not sufficient in preparing students for STA 4210.

A modification has already been submitted concerning the statistics minor that now allows STA 3024 or STA 3032 to count towards the requirements of the minor. This will allow students to now take one of these 3000 level classes (that will count towards minor) and serve as a more adequate prerequisite than simply STA 2023. Prior to this, students pursuing a minor were not required and therefore unlikely to take an "extra" 3000 level class simply to prepare them better.
