Pedagogical Rationale/Justification In order to better streamline the students to complete their practicum requirement in a timely manner and to be more prepared for their experience, we are proposing to move the Practicum requirement to the final semester. This will ensure most, if not all, core requirements are met prior to the experience therefore, making the students better prepared for the working environment.

Impact on Enrollment, Retention, Graduation We do not foresee any potential impact on the students enrollment, retention or timely graduation by making these changes.

Assessment Data Review The Undergraduate committee met with various community stakeholders in regards to preparedness of our students entering into their practicum experience. They unanimously stated adding FYC4622--Program Planning and Evaluation as well as FYC4801--Applied Social Research Methods to the required prerequisites before practicum would better prepare the students for their experience. These are foundational skills to completing their practicum.

Academic Learning Compact and Academic Assessment Plan No modifications will be made to the ALC.

Family, Youth and Community Sciences

Family, youth and community sciences prepares students in current trends, issues, problems and community assets to address predictable human developmental changes, unpredictable events such as natural disaster or persistent problems such as poverty and nutrition.

[Critical Tracking Model Semester Plan](#)

Overview

This interdisciplinary applied social science program provides the general and technical education necessary for graduates to enter careers in human services, including public, private, nonprofit and for-profit organizations. This includes family life education, youth development, human services, community development and extension education. Students receive the training needed to understand and help youth, families and communities by taking foundation courses in sociology, psychology and economics as well as advanced courses in youth, family and community development.

Students must earn a minimum grade of C in all critical-tracking courses, 3000/4000-level core courses and specialization elective, which must be at the 3000/4000-level. A 2.5 GPA in the core courses is required for graduation.
