

Academic Policy Council Minutes
March 18, 2011
9:30 a.m. 429 Library West

Attendees:

Nancy Poehlmann
Angel Kwolek-Folland
Tracy Rambo
Cynthia Morton
Oscar Crisalle
Teresa Dolan
Henry Frierson

The meeting was called to order at 9:35 a.m.

Dean Dolan presented the background information about the request from the College of Dentistry on the proposed School of Advanced Dental Science. After discussion, APC voted to recommend the School of Advanced Dental Science.

Oscar Crisalle asked the council to reconsider its recommendation that the process was followed for the creation of the Engineering School of Sustainable Infrastructure and Environment. He asked that the statement "It was noted that the majority of the College of Engineering faculty approve of the way the Dean handled the change" be retracted. He also requested that the APC should hear a dissenting view about the process of the creation of the COE school. Since the minutes had not been approved, the APC changed the statement to "Barbara Wingo gave the opinion that the majority of the College of Engineering faculty approve of the way the Dean handled the change and that process was followed." After discussion, the Council also decided that because there appears to be more evidence and additional information, the APC will revisit the issue at its April 1, 2011 meeting. Oscar requested a written opinion from Barbara Wingo that the process was followed correctly. Tracy Rambo concurred and asked the chair to contact Barbara for a written opinion.

The minutes were approved with above mentioned revision.

The meeting adjourned at 10:30 a.m.
