**Election or appointment of new contact for 2014-2015**

Jorg Peters volunteered to be the “contact” for the summer until a new chair can be elected in the fall. Most of the members are rotating off due to change in duties and/or transferring to another university. Because of this, there is no one who has served that can take over as chair. SCORS decided the best way to handle this is to have a “contact” until August when the council can then elect an official chair.

**Past year’s highlights**

Mirka distributed a short report on the SCORS highlights from the past year. A long discussion ensued with old members explaining the council’s accomplishments and reasons for decisions and suggestions for future topics. Old members asked that the new members to follow up on several topics

- Academic Analytics - it would be good to get faculty viewpoint on the table and ask administration how it will be used.
- Open Access – Follow up with Christine Fruin about the impact.
- Women in Research - This is a joint issue that SCORS has worked with Welfare Council. What is the data from other institutions?

Meeting was adjourned at 11:00 a.m.
