**President’s Report**

**Bernie Machen, President**

- President Machen observed that the budget deal in Washington DC is significant in that it foreshalls for about a year the next round of sequester funding.
- The state budget session begins early next year. The good news is that there is a surplus in the budget. UF is trying to make its position known on issues of importance for the university.
  - Top priority is raises for faculty and staff.
  - Hope to get the remaining funds for Chemistry Building.
  - Trying to get Newell Hall funded to convert to student learning center.
• Marshall Criser, Vice-Chair of BOT, has resigned to become the Chancellor of the statewide system. The Board elected Steve Scott as new vice-chair.
• We received a ruling from the state of appeals court this week about a gun issue. Our no guns-on-campus policy remains in effect. By the time we return in January, the university will have more of an idea what the ruling means.

Provost’s Report

Joe Glover, Provost

• UF Online is scheduled to start in January. New Executive Director, Betty Phillips has arrived in Gainesville although she officially will not begin her duties until January.
• We had a conference last week entitled “Online Education: The Future of Higher Education”. From all reports the conference was well received.
• We are in the process of the second wave of allocations for the Top Ten program. The Sr. Vice Presidents have recommended a number of proposals to the President. The President will consult with the committee of distinguished professors. A decision will most likely be made after the first of the year.
• Physical Plant has hired a space auditor who will look at space utilization.
• UF will start a three year major project to replace the student information system. The current system is decades old, on its last legs and written in assembler language. The university already owns the student module in Peoplesoft and will install that system.

Information Items:

Florida Statute 286.0114

Barbara Wingo, General Counsel

Public Comments at Public Meetings

• The Florida Legislature passed a law effective October 1, 2013, requiring the opportunity for public comments under certain conditions at meetings of boards or commissions that are open under the Sunshine Law.
• This will require certain Faculty Senate committees as well as the Faculty Senate to provide for public comments prior to official actions being taken by the respective body.
• The law does not apply to the Faculty Senate councils as they are not considered boards or commissions under the Sunshine Law.
• This has been referred to the Constitution Committee.
